# French And British Strike Savagely At Five Keypoints To Hindenburg Line

## French In Huge Drive Capture 10,000 Prisoners; Italians Start Offensive

London, April 17.—Five key-points to the much vaunted Hindenburg line were struck at so savagely by the great Franco-British drive today that their continuation in the enemy's hands much longer seems impossible. Of the five, Lens, La Fere and St. Quentin may fall to the allied onslaught at almost any hour. Cambrai and Le Mans are less closely enveloped, but the menace of the drive was none the less potent. General Haig's report today told of another successful thrust to the south of Cambrai around Epehy, aimed at Le Catelet, eleven miles south of Cambrai. Paris official statements more than confirmed the most sanguine hopes of success of the joint offensive entertained here. General Nivelle reported a desperate German attempt at Ailles to stem the French forward rush at Laon. Ailles lies just seven miles to the south of Laon. The counter-attack was repulsed by the French. Again General Nivelle's forces withstood another powerful German counter-attack at Courcy, four miles north of Rheims. It is in these two sections, apparently, that the French wedge has been thrust farthest forward against the German lines. An official battle front dispatch received here today declared the German losses were tremendous in opposing the French offensive. The Suissous-to-Rheims battle front selected by the French staff as the spot in which to strike is ideal for offensive fighting. It is a slightly rolling country, permitting the operation of vast forces and sufficiently clear to enable best maneuvering. Moreover, aside from the favorable nature of the country itself, the spot is strategically well situated, since every blow there is a jar to the German line, northwest of the channel. The German line makes a vast blunt angle around La Fere heading on an almost straight line around Verdun. The base of this angle—the new Hindenburg line—is Laon. The French blow is directly against this point.

## Government Control Of Packing Plants Expected

Washington, D. C., April 17.—Government supervision at least during the war of America's great meat packing industries is expected to result from the offer of the nation's packing kings to turn their plants over to the government. The packers who have tendered their plants to the government represent a combined industry of one billion dollars. They are: Armour and Company; Swift and Company; Cudahy and Company; Wilson Company; Nelson-Morris Packing Company. The packers warn that unless

## Speeders Who Kill Pedestrians May Be Sent To Penitentiary

Columbus, O., April 17.—Ohio supreme court today laid down the principle that autoists who run down and kill pedestrians while speeding may be convicted of manslaughter and sent to the penitentiary. The high court upheld judgment of Lake county common pleas court which found E. E. Schaeffer guilty of manslaughter for the killing of Adelbert Chalky, a child of two years, run down by Schaeffer in High street, Fairport, Ohio, in August, 1915. The court also upheld Wood county appellate court which had affirmed the common pleas court of that county in sentencing to the penitentiary William Schier, Muncie, indicted for manslaughter for the killing of Raymond H. Pratt, Perryburg school boy, while Schier was driving through Perryburg. The court declined to rule on whether border troubles and the use of state militiamen there placed the United States in a "state of war" with Mexico. Former Assistant Adjutant General Bryant had sued in supreme court to compel State Auditor Donahay to pay him \$1,400 more than his regular salary, on the ground he was ordered to aid in mobilization of Ohio National Guardsmen here last summer and was thereby entitled to "war time pay," as a colonel. The court today ordered Donahay to pay the extra \$1,400 but did not pass on the "state of war" proposition.

## Air Battle Follows Raid On Freiburg

Copenhagen, April 17.—An allied aeroplane raid on Freiburg Saturday which caused only damage to public buildings and killed seven women, was detailed in a German statement received here today. Thirty-five aeroplanes participated in the attack. Three men and seven women were killed, only one of these being a soldier. The wounded were eight men, sev-

## TO DISCUSS U. S. PART IN "BIG PUSH"

Washington, D. C., April 17.—America's part in the "big push" which is hurling German troops back from their long established lines in France, keeping Teutonic commerce off the seas, and arraying the republics of the world against the kaiser, will be under discussion here within the next 24 hours. Food and fighting forces are yet to really be mobilized, but all efforts are being directed toward a single goal. Chicago packers have offered to turn their vast meat industry over to the government and permit the fixing of prices. J. Ogden Armour today suggested one meatless day a week as a means of conserving America's food supply. The arrival of the British and French war commissions is anticipated today or tomorrow. Meantime the senate is expected to pass the war bond bill, making available a gigantic loan to the allies, as well as providing for America's financing of the war against Germany. The high commissions of both England and France will be housed in two mansions in the most select part of Washington. Special care has been taken to guard the commissions. In some quarters it was suggested that placing them in private houses was due to a desire to shield them both from the curious and from possible cranks.

## Kaiser Soon To Make Known Peace Terms

Christiania, April 17.—Germany is shortly to issue to neutrals a statement of the terms on which she considers peace negotiable, according to rumors in diplomatic circles today. The reports came from sources known to be closely identified with the German officials' plans. Those closest in touch with the German movement here had not heard any details of what Germany proposes to offer. They did not believe, however, that there would be many concessions from the unofficial, but highly inspired, outlines of Germany's demands given out both at Washington and in Germany at the time of Von Bethmann-Hollweg's famous peace tender last December. Scandinavia is the center of Germany's peace efforts aimed at Russia. That the Teutonic officials are making every effort to realization of their hope of separate peace with the new provisional government at Petrograd is apparent in every quarter here. American diplomatic officials have been formally advised that the German government is behind the pseudo-Socialist movement for peace. It was the German government that apparently started the Socialist propaganda work and it was the German government that pushed it by active support. Count Von Bernstorff, prime apostle of peace propaganda work, has been selected as German ambassador to Sweden, purely in line with this Russian effort. Meanwhile German propagandists of lesser caliber spread reports of Germany's desire for peace—carefully avoiding, however, any statement of terms.

## MYSTERIOUS AIRPLANE IS SIGHTED

Boston, Mass., April 17.—A mysterious aeroplane was sighted over the Boston and Maine railroad bridge crossing the Piscataqua river by Massachusetts national guardsmen shortly before midnight last night. Captain W. L. Howard, commandant of the Portsmouth navy yard, sent a message to Captain William R. Rush, commandant of the Charleston navy yard, today and the latter issued the following statement on the report: "Commanding officer of the Sixth Massachusetts national guard detailed to watch the Boston and Maine railroad bridge over the Piscataqua river reports

## POLITICS MAY BEAT ARMY DRAFT PLAN

Washington, D. C., April 17.—an "I kept you out of war" plea—made it appear inevitable today that the volunteer plan will be given a trial first. The compromise which seems likely to go through, will be authorization for the president to call for 500,000 to one million volunteers immediately. At the same time the machinery for conscription will be authorized and put into motion, so that if the volunteer system doesn't work within ninety days, conscription could be put into effect immediately thereafter. The senate, on the other hand, appears more favorably inclined to the conscription plan. Senator Chamberlain believes there is only one vote in the senate military committee which favors a compromise. Chamberlain feels there is sufficient volunteer provision in the bill to give that system thorough test, while the actual work of preparing for conscription is being done. It was indicated today that the senate committee will not wait for the house committee's action on the bill much longer. The situation is better in hand, for the administration's view-point, in the senate, than in the house, and it will be that the upper branch will get the jump and pass the whole buck up to the house. Unless President Wilson and Secretary Baker weaken and accept a trial of the volunteer system, it appears likely that there will be considerable debate on the army bill and it probably won't become a law for some time. A popular demand that Theodore Roosevelt be permitted to lead a division abroad as soon as he can raise it, has sprung all over the central west, if a rush of telegrams and letters here are to be accepted as showing which way the wind blows.

# ENEMY SUBMARINE HOVERING NEAR THE CITY OF NEW YORK

Washington, April 17.—Germany fired the first shot of the war against America today—and it missed.

Official information reached the navy department shortly afternoon, that the United States destroyer Smith was fired upon by a German submarine at 3:30 a. m. The torpedo launched by the U-boat missed the Smith. The latter gave chase to the submarine but the enemy ship submerged and escaped.

Announcing the first engagement of the war, the navy department this afternoon issued the following bulletin:

"Reported from Fire Island Lightship to navy station at Boston and at New York that about 3:30 a. m., the 17th, an enemy submarine was sighted by the U. S. S. Smith, running apparently submerged. The submarine fired a torpedo at the Smith, which missed her by thirty yards. Wake of torpedo plainly seen crossing the bows. Submarine disappeared."

The navy department had not heard about the clash until press reports brought word of it. Immediately Lieutenant Commander Belknap, navy censor, got the New York navy yard on long distance telephone and asked details.

New York, too, was ignorant of the incident, but at once communicated with Fire Island Lightship, from which the original report to Charleston had been made.

A few moments later the lightship, 35 miles off Sandy Hook, flashed back the story to the New York yard, which at once notified Belknap.

The submarine's efforts to sink the destroyer was the first direct evidence of the oft-repeated rumors that German U-boats lurked off our coasts.

The fact that the Fire Island Lightship conveyed the original information led to the belief that the German was not far distant from New York City, inasmuch as the lightship is only 35 miles beyond Sandy Hook, the outer portal of New York's harbor.

While for military reasons, the navy does not say what is being done about hunting the submarine, it is assumed that a redoubled watch is being put into effect.

Reports to the Boston naval station, indicated that the submarine was hovering off the Jersey coast midway between Atlantic City and Asbury Park, and only a short distance below New York City itself.

The navy has no way of knowing whether the submarine has made the journey from Bremerhaven, intending to make a quick stroke and return or whether it has been lying off the American coast for some time getting its supplies from a hidden base on the Mexican coast or elsewhere along the Atlantic coast.

One of the numerous reports of submarines off our shores has been that a group of them were harbored in Mexican waters ready to make a spectacular raid on one of the big American ports.

The immediate effect of the Smith affair, as the navy sees it, will be to stir up the country to a realization that war is at our shores and to stimulate recruiting both for the navy and the army.

New York, April 17.—New York—the greatest city in the world—is in the war zone this afternoon.

The greatest secrecy is being maintained as to steps that are being taken to protect the port, but with a German U-boat reported by the navy department immediately off the coast, the city was admittedly menaced.

Late reports from the Boston naval station indicated the belief that the submarine which attacked the United States destroyer Smith, might be off the Jersey coast.

Fire Island, from which original reports of the hostile ship's presence came, is only 35 miles from Sandy Hook, the entrance to New York Bay.

If successful in eluding the American patrol ships, the submarine may slip into Long Island Sound and bombard outlying sections of the town.

New York harbor is guarded by submarine nets, it is known, but whatever other defenses there are is kept secret by the navy department.

## Berlin Strike Fizzles, Say Officials

Berlin, (Via London)—April 17.—A general strike, fomented by extreme Socialists as a protest against the reduction in the bread ration, effective Sunday, fizzled out today. Only a few factories were forced to suspend by the strike. Not a single munitions plant was affected, officials declare. Business apparently was continuing as usual today. All of Berlin's subways and street cars were running with their usual number of employees. Amsterdam, April 17.—Berlin's general strike is crippling the output of metal and wood and tying up transportation, facilities according to dispatches received here. Details were meagre. There was no confirmation of one report of disorders in the German capital.

The funeral of Mabel Lykins, 8-days-old daughter of Mr. and Mrs. Oscar Lykins of 531 Fifth street, who died Friday, was held Saturday at Blue Creek, Adams county with interment in the Copas cemetery there.

## Max Wise

A message was received by Samuel Wise, Fourth street, Monday evening, stating that his brother, Max Wise, 67, of Louisville, Ky., had died from diabetes. Mr. Wise is survived by one son, Bernard, and his wife. The funeral services will be held Wednesday.

Mr. and Mrs. Samuel Wise went to Louisville, Ky., Tuesday to attend the funeral services.

For many years, Max Wise was engaged in the clothing business in this city, coming here with his father, Leopold Wise, in 1865. He was well known in business circles and was considered by those who knew him as a man of marked ability. About fifteen years ago, he left Portsmouth and engaged in business at Louisville, Ky. The family for years resided in what is now the Schaefer property on Market street, near Fourth, and the news of Mr. Wise's passing away will be learned of here among his old friends, with sincere regret.

## WINNERS ENJOY LAUGH WHILE LOSERS HAD TO WASH BANQUET DISHES

Members of the Young Men's Bible Class of the German Evangelical church, taught by William Hazlebeck, officers, orchestra and teachers of the Sunday School enjoyed a banquet in the basement of the Sunday School, Monday evening.

The banquet was the climax of a membership contest waged for

two months in Mr. Hazlebeck's class. The Reds won out by two points, the banquet and program being furnished by the Blues, the losers. Besides furnishing the banquet the losers had to wash dishes while the Reds and invited guests stood about and enjoyed hearty laughs.

The menu consisted of ham sandwiches, cheese, baked beans, potato chips, pickles, coffee, ice cream and cake. Interesting talks were made by Albert Smith, Louis Weiss, Rev. Samuel Lindenmeyer, William Hazlebeck and Oscar Kah.

The committee in charge consisted of Frank Rowe, chairman, George Ahrend, Arthur Link, Edward Bender, Hoyt Smith and Arthur Kugelmann.

## Come Again To Tell All Of New Tonic

The Tonic demonstrator is again in Portsmouth explaining the new tonic to the public daily at Fisher & Streich's Pharmacy.

After two years of continuous sale in Portsmouth the demand for Tonic is sufficient to warrant the presence of a special representative. More than that, it is expected that the demand during the period that the demonstrator will be in the city and after that period, will surpass all previous records here.

This established demand is the best proof of the unusual merit that is claimed for Tonic. If a product is tried and it withstands the test as Tonic has, its merit should be proven. Tonic has, for months and months, been sold to Portsmouth residents. They are satisfied with Tonic's work. If they hadn't been satisfied, Tonic's sales in Portsmouth would have dropped to nothing months ago.

### Hundreds Praise Tonic

Hundreds of Portsmouth people are now taking Tonic and many who have tried it have given public statements about the new tonic having come to realize that others who suffer as they did should know about such a medicine.

Mrs. Lucille Licks, 823 Chilli-cothe street, is one of the satisfied users of Tonic in Portsmouth. She says that health worries she had for years have been banished by Tonic and she tells interestingly how the work was done by the new tonic. Her story follows:

"I have been helped by Tonic and I want to aid others to get the same relief. I invite anyone who suffers from stomach troubles as I did for several years to ask me about Tonic and what they may expect from its use," Mrs. Licks said.

"I couldn't eat any kind of food that was the least bit rich. If I did I was sure to be sick. Most any kind of food made me feel bloated and uncomfortable. Why, sometimes I swelled up so much after eating that I had to loosen my clothing.

"Well, all that's over now and I've got to thank Tonic for my relief. I've taken lots of medicines but I've derived more real good from Tonic than from anything else I ever tried. I can eat any kind of food I care for now without any bloating or other bad effects afterward.

"I used to dread for night to come. Night didn't mean sleep and rest, I can tell you. Sleep was almost unknown to me. I've laid awake many nights and wondered if I'd have a dull headache and a bad taste in my mouth the next morning, too. My color was getting bad.

"Feels Fine In Mornings  
"The very first bottle of Tonic, besides helping my stomach as I said before, straightened up my nerves. I know I'm going to sleep and get a good rest when I go to bed at night now. I don't think I ever slept better in my life than I have since taking Tonic. I feel fine and good when I get up in mornings now, too."

The Tonic demonstrator will tell you all about the new tonic at Fisher & Streich's Pharmacy.

near Harrisonville, Monday.

The Boy Scouts of New Boston will meet this evening at the Christian church. Every member is urged to be present.

Bennett Kayser and Rev. O. L. King of the Terminals were visitors here Tuesday.

The Evening Star club met at the home of Miss Blanche Henry of Gallia avenue, Monday evening. The evening was spent in sewing and music after which refreshments were served. These present were Misses Edith Blume, Edna Lawson, Esta Kellner, Margaret Emmert, Elizabeth and Bryon Taylor, Emma Nourse, Emma and Ruth Hayden and Blanche Henry.

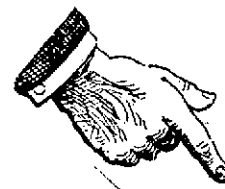

Virginia and Alda Hurley spent Sunday with their aunt, Mrs. John Hurley of Rhodes avenue.

Work is progressing nicely on excavating for the new high school building in Glenwood addition.

Mrs. James A. Hurley of Rhodes avenue received word from the bedside of her sister, Mrs. George Hummel of Chillicothe, saying she was no better.

# Navy League Plans For Work

## FINE MEETING WAS HELD LAST NIGHT

The Federation of Women's clubs of Portsmouth and various women's organizations are planning to assist the Seaside county branch of The Navy League of the United States in knitting socks and making garments that are not supplied by the government for the men that are in the service of the United States Navy. This announcement was made by James W. Bannan, temporary president, at an enthusiastic meeting of the Navy League branch, held at the Public Library Monday evening, at which more than thirty members were present.

Arrangements were made to secure a location downtown, where members will start the work of the League immediately. Arthur H. Bannan was appointed to secure a room.

When the room is secured, an advertising campaign will be started to secure recruits for the navy, and sewing machines will be installed, where the women will make things for the enlisted men.

Mr. Bannan explained that the purpose of the League, which is a national organization of thousands of members, was to encourage young men to enlist in the navy, to make articles of clothing not furnished by the government, and to furnish relief to the dependents of enlisted men.

Every man and woman in the city of Portsmouth is invited to become a member of the Navy League and to assist in the work. Those desiring assistance, should see Miss Ruth Thompson, Mrs. William H. Schwartz or H. C. Murfin.

"Patriotism is not charity," explained Mr. Bannan, in an address.

"Suppose a man saved your life at the risk of his own and at the expense of a mangled arm; suppose he placed him to a chair and bound his wounds; suppose you loaned him an old coat to shelter him from the weather while he was being taken home; would you call your action 'charity'? Would you consider that he had been stirred by feelings of compassion?"

"Suppose a sailor on a torpedo boat, dashed by freezing spray, was made comfortable by a blue muffler, of yarn obtained from the Navy League's Comforts Committee. Would you call it 'charity'? Would you consider it compassion or pity?"

"American seamen need no charity. They need to be a worker for the Comforts Committee of the Navy League. They are prompted or stirred by feelings of Charity, do not take up charity. Do not buy yarn. Do not

knit. Keep away from the Comforts Committee. You are not wanted. "Do you realize that every time a blue-jacket stands a watch at sea he is doing it for you; do you realize that the lives of the entire ship's company may depend upon the comfort of the men on watch, and do you realize that if that ship's company happens to be lost, their lives are lost for you?"

"The United States Navy is the best fed and the best clothed navy in the world. Everything that is necessary for the health and efficiency of the individual is supplied by the government so far as is possible. There are many good reasons why such things as mufflers and wristlets are not supplied to the men in our navy, or the men in any other navy. There must be a limit to the articles of clothing given to the men. Our government cannot give every blue-jacket a Saratoga trunk, a few hat boxes and some umbrellas. There are certain intimate things which every individual feels are entirely personal to himself and add to his own comfort; in this case comfort is efficiency plus.

"Did you ever go to West Point or Annapolis and visit the rooms used by the cadets or midshipmen? If you did you noticed that there were no pin cushions on a dressing case, but you didn't think there were no pins used. The border line between utility and luxury is as hard to define as that between sanity and insanity. There are times when articles of comfort might be classed as luxuries and the other way around.

"It is a small thing after all that you are asked to do, but let it first of all be considered that the noble women who are on the Comforts Committee of the Navy League are patriots. They think patriotism and what is more to the point they act patriotically. No thought of charity enters their minds. If they were not women, they are of the kind who would be on the ships doing their part, or in the trenches ready to 'go over the top.'"

"That is the kind of humanity that animates the workers of the Comforts Committee. If they were fighters, they would fight as hard as they work. If they were shirkers they would not be working at all for this cause, but they might be making headed pin cushions for some light-headed beaver who never saw a pin in his life, or embroidering slippers for some unwarlike curate who already had a closet full of slippers.

"It is true that 'Charity suffereth long and is kind'; also that 'Charity begins at home'; but patriotism begins at home, too, and the home of patriotism follows her flag. Let us repeat the sentiment expressed in print, when the announcement of the Navy League's Comforts Committee was first made:

No Charity is asked of the people of the United States at this juncture, but a visible material patriotism is demanded.

All Knights of Pythias of the city and county are urged to meet promptly at 7 p. m. Thursday at Third and Chilli-cothe to take part in Loyalty Parade. Bring flags. Signed,

RALPH G. JOHNSON, Special Deputy.

## NEW BOSTON

Vernon Smith will lead the prayer meeting services at the Christian church Wednesday evening. The subject for the evening is "The Pentecostal Community". All are cordially invited. After the services the "Training for Service" class will meet.

Miss Mary Hayden, who sprained her ankle several days ago, is getting along nicely.

O. D. Chinn is having his house on Gallia avenue, repainted.

Members of the Baptist church are preparing for a revival meeting which will be held in the near future. Cottage prayer meetings are being held at different homes during the week and the next meeting will be at the home of Mr. and Mrs. Harley Black, of Harrisonville avenue, Friday evening. All members should attend.

Miss Virginia Hovey of Sedalia, Missouri, and Mrs. W. R. Jones of Portsmouth, were the dinner guests Tuesday of Mr. and Mrs. Chas. Stricklett of Rhodes avenue.

Earl Fischback, clerk at Coburn's pharmacy is still waiting for the stranger who took his order for a suit of clothes and \$3 down, to return. About 2 months ago a man giving the name of Martin who said he was representing a large Chicago tailoring firm, arrived in the village soliciting suit orders, the person

giving the order paying the agent \$3. The suit was to be delivered in three weeks when \$8 more was to be paid. The suit or agent has never shown up.

Council at their regular meeting waded through seven long resolutions for the paving of Pine, Spruce, Cedar and New Center streets, Lakeview avenue, Milldale Road and Stanton avenue.

The resolutions are duplicates of the old legislation passed several months ago and have to be passed on account of paving bids being higher than estimates.

A request from Mrs. Eliza King that a sanitary sewer be laid in the rear of her property on Harrisonville avenue, was referred to the sewer committee. L. C. Turley was present and told Council that Mr. Jordan and himself, were only waiting word from the street committee and the village engineer to go ahead with the work of putting a two foot fill on Milldale Road.

Attorney Harry W. Miller of the law firm, Milner, Miller, Searl and Marting, filed a protest against the paving of Milldale Road in behalf of L. D. York and the Portsmouth Street Railway and Light Company, the protest setting forth that their abutting property would not be benefited by the improvement.

W. W. Skelton presented a claim of \$300 for damages to property on Spruce street growing out of the paving of the street. The law and claims committee will investigate. Solicitor Crawford asked members of the law and claims committee to give their assistance in the Mrs. Loretta Prater damage suit against the village.

Solicitor Crawford was ordered to bring in an ordinance providing for a \$10,000 bond issue for the construction and maintenance of sewers the first of which are to be laid in Millbrook and Highland additions. Engineer Kinley was instructed to have the water main in the alley north of Oak street lowered. Engineer Kinley reported temporary water mains laid in Millbrook addition.

A motion was voted on favorably for council to petition the county auditor for a re-appraisal of real estate in the village.

Mrs. Thurman Emory of Harrisonville avenue, is suffering with neuralgia.

A missionary rally will be held Saturday evening at the Baptist church at 7 o'clock. The members of the Baptist churches of Portsmouth will take part in the meeting. Everybody cordially invited.

Mrs. Mabel Barbee of Stewartsville, was the dinner guest Tuesday of Mrs. W. H. Jenkins, of Gallia avenue.

Rev. and Mrs. A. C. Shaw, Mrs. Ida Rose, Mrs. Emma McNamee and Mrs. J. A. Hurley visited friends

giving the order paying the agent \$3. The suit was to be delivered in three weeks when \$8 more was to be paid. The suit or agent has never shown up.

# Valley View

CONSISTING OF 152 LITTLE FARMS AND BIG LOTS, is situated on the Portsmouth and Galena turnpike, within sight of Portsmouth; the pike will be paved past the subdivision this year.

VALLEY VIEW lies on a slope rising gently westward from the edge of the Scioto Valley, famous the world over for its fertility, which it overlooks, as it does the Peerless City, with the most magnificent and picturesque view to be had in Southern Ohio. One glance at the grand panorama presented to those whose good fortune it has been to visit our subdivision, immediately suggests the name by which it is known.

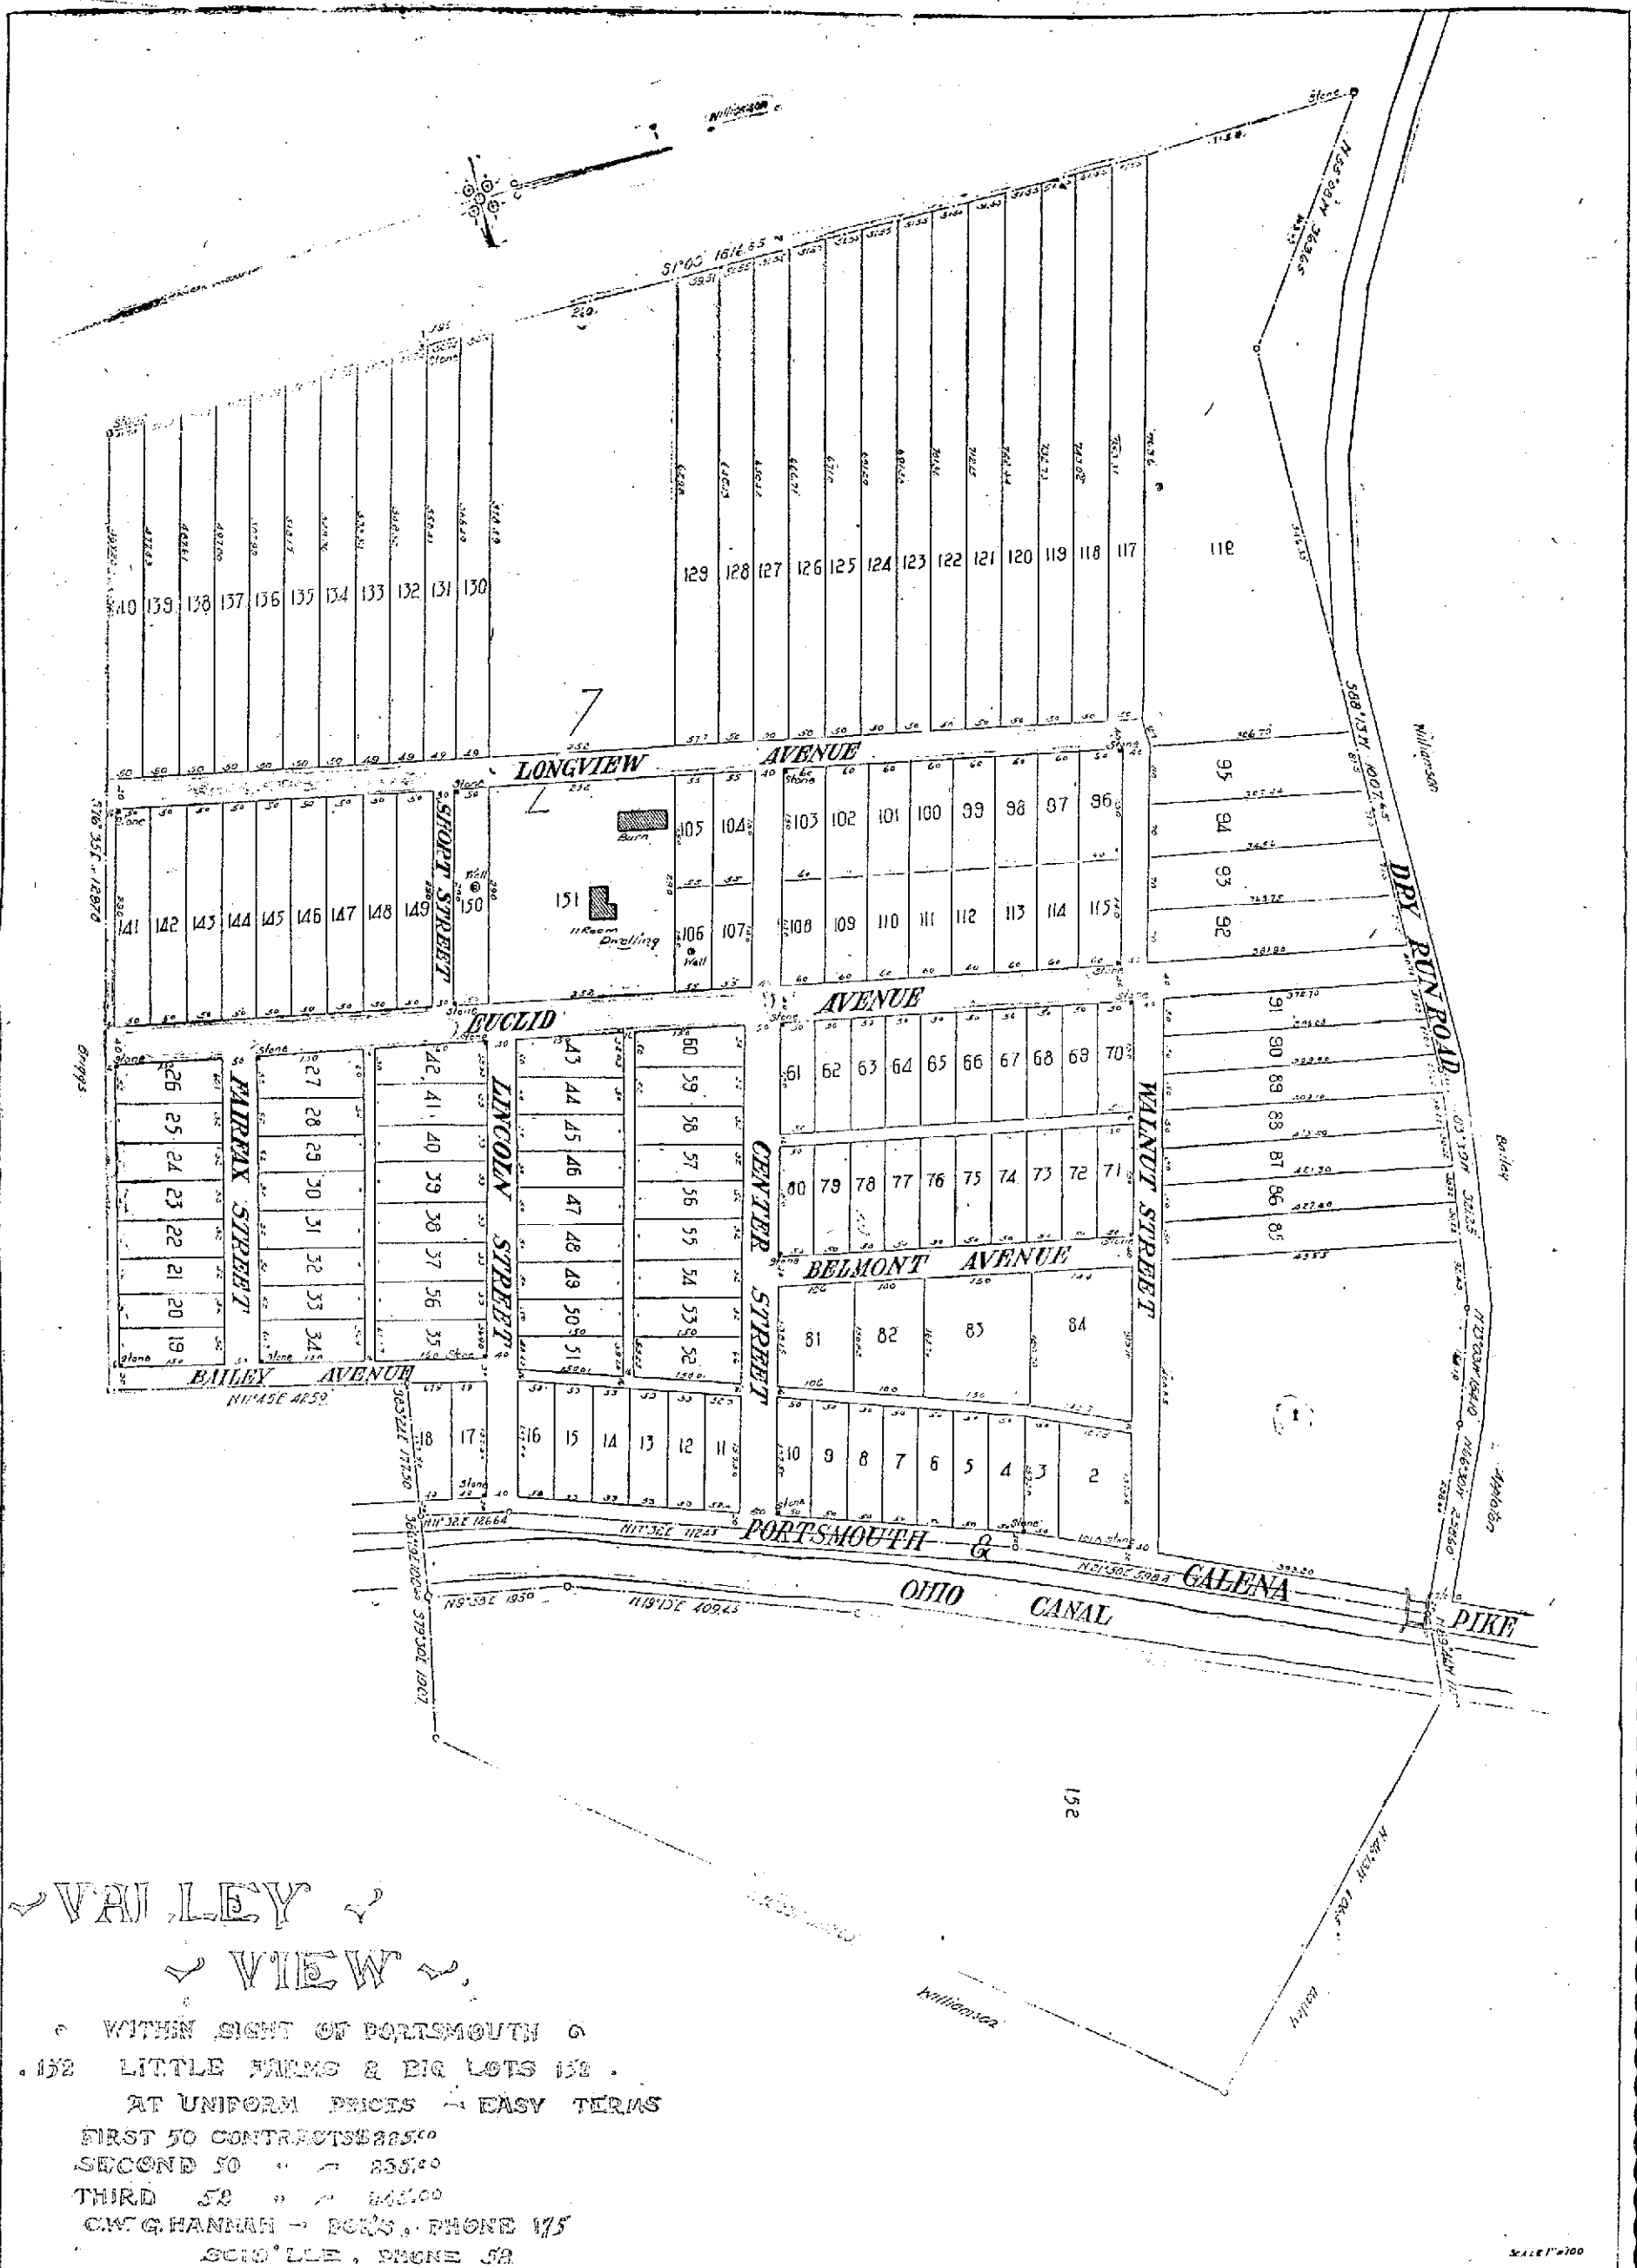

A cry has gone up throughout the Portsmouth community for home-sites with garden spots and a study of the accompanying plat will demonstrate that VALLEY VIEW has been subdivided in response to the demand for such places. The reader will note that nearly half the parcels comprising the Valley View subdivision are of such large dimensions as to make the term "Little Farms" by no means inappropriate, while the remainder must be designated as "Big Lots" as compared with the mere house-sites common to most subdivisions about Portsmouth.

## Our Plan of Selling

We are offering EVERY LITTLE FARM AND BIG LOT IN VALLEY VIEW INCLUDING THE 6 ACRE TRACT WITH \$7000.00 IMPROVEMENTS JUST AS SHOWN UPON THE PLAT in three allotments—

Each allotment having a uniform price as follows: The first 50 lots sold will go for \$225.00 each, the second 50 at \$235.00 each, and the third allotment of 52 lots will be sold for \$245.00 each. The different prices at which the several allotments will be sold, will in no way affect the distribution of the various interests acquired by the purchasers. You simply pay the advance by deferring your purchase as the sale goes on. OUR TERMS ARE EASY. LIBERAL DISCOUNT FOR CASH.

We have a proposition which for the purpose of fortifying yourself against the inroads being made upon your earnings by the advanced cost of living, stand without a parallel in the Portsmouth community; a proposition which as an investment upon which you may hope to realize enormous profits, stands unequalled in Southern Ohio, and we are entering upon a thirty days active selling campaign in which every Little Farm and Big Lot in VALLEY VIEW will pass into the hands of those who need homesites with good garden spots and those who have the backbone to take a shot at an investment in which there is NOT A SINGLE CHANCE TO LOSE A DOLLAR, and in which there are seventy instances of one hundred and fifty-two where buyers will realize from two to thirty times the original investment even at the advanced cost. Make us show you. It will cost you nothing.

## THE MARKETS

### NEW YORK STOCKS

Financial Review  
New York, April 17.—The New York Evening Sun financial review today said:

Today's stock market was of no great interest to anybody, reflecting as it did the professional operators who were more or less puzzled by what appeared at intervals to be good outside buying by substantial interests. The result was a wavering market of very temporary aspect, with prices narrow and irregular at the opening, followed by a brief period of financial weather selling down a point or so, in the case of the standard and in the case of the certain specialties like Bethlehem Steel, B. stock, United States Industrial Alcohol, Central Leather 2 to 3 points or more. At midday there was a general stiffening which left prices not far from the level of the previous closing but business became lighter, indicating that the supply of stocks was limited when it came to short covering or profit taking.

The economic news was heavy throughout and at intervals distinctly worried particularly United States Steel and Bethlehem because of the tax outlook for those companies as suggested in Judge Gary's statement.

The railroad list was quiet in the main but there were moments of comparative animation under the leadership of Union Pacific and Reading both of which advanced more than a point. Bonds were quiet and firm. Money rates were unchanged.

New York, April 17.—The stock market showed some nervousness while being somewhat in the financial market tightened and trading slackened to sixty thousand shares during the first afternoon hour.

United States Steel sold as low as 10.34 but at 4 o'clock was up two points from that figure. After touching 7.54, Marling preferred rebounded to 7.74. Industrial Alcohol sold off about five points to 14.25, later recovering 15.

A marine corps recruit station was opened at Seven Wall Street this afternoon.

The market closed irregular.

## BRINGING UP FATHER

Copyright, 1917, International News Service.

By GEORGE McMANUS

A number of murders is accredited to "Petersburg," among which are, the police say, a colored man at Do Von, W. Va., a negro at Circleville; a man at Tunnel No. 9, L. & N. railroad, which is near Cincinnati, and a white baber at Greenup, Ky. All of these murders have been accomplished within the past four years, it is said.

A negro was arrested by the police in 1914, upon information secured from two negroes, who was believed to be "Petersburg." But on examination the next day, it was found that it was a case of mistaken identity.

Massie Rucker and C. W. Trent were held for interfering with Officer Flowers, while making the arrest.

"Just a playin' a bit," was the excuse offered by Minnie McKane, Edna Zimmerman, Ben Dabney and Everett Roberts, when arraigned on charges of disorderly conduct. The four were fined \$25 and costs and were sentenced to 30 days in the county jail.

"Peg" Davis was back in court Tuesday to answer to a charge of being drunk and operating a disorderly house. He said he was guilty of being intoxicated. He was fined \$25 and costs.

Pat McCann and David Heller were each fined \$5 on charges of intoxication.

Edward Glynn was given a \$25 fine and was committed to the county jail until paid, on a charge of begging on the street and being drunk.

"Petersburg" suddenly denied any connection with the shooting and evaded questions relative to his former life. He said that Officer Flowers began hitting him with a club and he fought back to "keep from getting his brains beat out."

"Petersburg," from the traditions that abound in the railroad construction camps, is one of the most brutal negro criminals on the road. Most every colored man is afraid of "Petersburg." Whether this man is a character of fiction or whether he is real, remains for the police to find out.

# Loyalty Parade Is To Be For All In The Community

"This is your parade and my parade, and it is not a parade of this organization or that organization," L. C. Tarley, of the general committee, said Tuesday in discussing the Loyalty Day parade, which is to be held by the citizens of Portsmouth Thursday evening, as a visible pledge of loyalty and support of the action taken by the United States toward Germany.

It is the individual parade. And organizations are only used to better handle the men and women that will march. Every man and woman in the city is asked and urged to turn out in this parade. It is a public demonstration of Portsmouth's patriotism.

This evening at seven-thirty o'clock the general committee and Grand Marshal, Capt. W. J. Keyes, will hold an important meeting at the city council chamber. Delegates from every organization in the city expected to take part are expected to attend. Final arrangements will be completed. The time is short and it is of vital importance that every citizen assist in making the Loyalty Day parade the greatest event in the history of the city.

Citizens of Scioto county, Greenup county, Ky., and Lewis county, Ky., have been invited to take part in the mammoth demonstration. Indications are that several hundred visitors will be here from the towns and communities to help make it a decided success.

Promptly at seven-thirty o'clock Thursday evening the various organizations and individuals will assemble at their appointed places along the streets crossing Eighth street. Near eight o'clock the parade will move.

At the Gallia street esplanade the parade will disband and the massed bands of the city will gather on the esplanade, together with the massed church choirs, where "The Star-Spangled Banner" and "America" will be sung. This will conclude the Loyalty Day exercises.

During the parade no automobiles or vehicles will be allowed within one block of the streets over which the parade will move.

A squad of one hundred plain clothes men will assist the police department in quelling disorders of any sort.

Everyone is asked to bring an American flag. Should you not be able to secure one, you are urged to

join the marchers just the same. Do not let anything keep you away. Children under sixteen years of age, who are not with organizations, will not be allowed in the parade.

The center of the esplanade will be reserved for the massed bands and the church choirs. No one will be allowed to enter this place except those for whom it is reserved.

Members of the various church choirs in the city are asked to be at the esplanade at seven-thirty, ready to form a great chorus, to lead the public in singing the two national anthems.

Organizations who have not been assigned to a place in the parade are urged to call Chairman Mayor H. H. Kaps.

Watch The Times for all announcements and master every detail, so that the parade will move without a hitch of any sort.

Revised plan for the formation, etc., of the Sixth division was announced by Mayor H. H. Kaps, as follows:

Sixth Division forms on Gay street, north of Eighth street, facing south, and is formed as follows:

Division commander—Fred Minor. Aides—William Gooden, William Cornutte and John H. Jackson.

The Lewis Brass Band. This division will represent the Allen chapel and all other colored organizations and citizens.

The members of the Allen Chapel choir will report at the Gallia street esplanade at seven-thirty o'clock to join the massed choirs of the city.

Spanish War Vets Will Be There

All Spanish War Veterans, whether members of cavalry, navy or any department of the country's defense, living in Portsmouth and vicinity, whether members of the camp, are urged to meet with the Spanish War Veterans of the Peerless Camp No. 79, at 7 o'clock Thursday night in the G. A. R. hall, to join in the Loyalty Parade. All who can wear their old uniforms are asked to do so. G. S. CARROLL, Commander.

Sons of Veterans Will Turn Out

To All Sons of Veterans of Portsmouth and vicinity:

On next Thursday evening a patriotic demonstration will be held in this city in which it is the duty of every loyal American to take part. Our country is at war and our sons are now called to their places in the battle line as our fathers were called in '61. As lineal descendants of "the boys in blue" it is doubly our duty to show our loyalty and devotion to our country at this time.

So, in order that all sons or grandsons of veterans of the late war, whether members of the order or not may have an opportunity of marching together under the flag for which their fathers fought, this invitation is extended to come and join us Thursday evening.

All descendants of soldiers or sailors in the late war are eligible to be members of the order, so if you are one of these bring your

flag and come along. Let the sons of the men who went up Lookout mountain and faced Pickett's charge at Gettysburg show that they are no less loyal than their fathers.

All sons of veterans and grandsons, whether members of Vienna Camp No. 26, or not, are asked to meet in the G. A. R. hall at 7 p. m. Thursday to take part in the parade. J. P. SCOTT, Commander.

More Will Join Parade

Paul Esselborn, member of the committee in charge of the fraternal organizations taking part in the "Loyalty Day" parade, stated Tuesday that he had received word from the Harugari, the Navy League and the Women's Auxiliary of the Order of Railway Conductors, that the members of those organizations would take part in the demonstration. Places in the parade will be assigned them.

Scioto Will Be There

Scioto Lodge No. 31 I. O. O. F., at its regular meeting Monday night completed arrangements to turn out in the Loyalty Day parade and conferred the Friendship degree upon four candidates.

Magnolia In Line

At the meeting of Magnolia Lodge K. of P. Monday night arrangements were completed for the members and those of Massie and Peerless Lodges K. of P., to turn out in a body in the big Loyalty Day parade Thursday night.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whittling at his corns, but clip this out and make him try it.

## Negro Who Shot At Officer Held To Jury

As many as sixty spectators called at police station Tuesday morning to see Bill Williams, whom the police believe to be the famous "Petersburg." Williams is a tall heavy set black negro, with low forehead, blood shot eyes and well scarred scalp. He was charged with having shot at Officer Charles Flowers with intent to kill. Mayor H. H. Kaps held him to the grand jury on a \$1000 bond.

Testifying, the officer stated that "Petersburg" had sent word by friends that he intended to visit Portsmouth for the purpose of paying his respects and regards to Officer Flowers and that his greeting would come from a pair of "automatics," for he expected to kill this officer who has gained a reputation for maintaining peace in the North End.

## Most Effective Remedy Mother Had Ever Used

Dr. Caldwell's Syrup Pepsin Relieves Baby When Other Medicines Failed.

There is nothing so necessary to a child's health and comfort as regularity of the bowels. All children are especially susceptible to stomach trouble and any over-activity of the sensitive organs has a tendency to obstruct elimination. This condition is responsible for much of the illness of childhood.

To relieve constipation a mild laxative should be employed. Cathartics and purgatives are violent in their action and should be avoided. Mrs. Alfred Du Bois, 21 Holly, N. J., says Dr. Caldwell's Syrup Pepsin is without doubt the most effective remedy for constipation she has ever used and that it is the only remedy she could find for her baby. Little Du Bois had been constipated during the last year and nothing she had tried seemed to help him until she had a bottle of Dr. Caldwell's Syrup Pepsin. Now he is a fine, healthy boy, and she thanks Dr. Caldwell for it.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative with pepsin, free from

opiates or narcotic drugs; it acts gently without gripping or other discomfort, and appeals to children because of its pleasant taste. Druggists everywhere sell it for fifty cents a bottle, and every mother should have it in the house for use whenever occasion arises. To avoid imitations and ineffective substitutes always be sure to ask for Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.

"A Million Volunteers" is the title of chapter 11 of "Pearl of the Army" the timely military serial featuring Pearl White. These serials are the best produced.

#### At The Temple

This is Triangle night at the popular East End movie house, where the best pictures are seen and the good music enjoyed. Triangle night is always a bargain night. "Busted Trust" is the title of the two-act Keystone comedy, splitting comedy in which Slim Summerville is the dispenser of the laughter. An A No. 1 bill.

#### At The Arcana

One of those thrilling Western bills today with a side splitting one reel comedy. "Heroes of the Plains" is the title of the Big U Indian drama and it is a real thriller. See the Indians attack the old cabin and how the young Westerner holds off the redskins with a lone rifle. "From Out of the Past" is a Rancho Western production featuring the rough cowboy. See the exciting capture of Paro Dick. "A Bare Living" is the riotous Victor comedy featuring Eileen Sedgwick, Ralph McComas and Milton Sims.

#### At The Strand

"The Crimson Stain Mystery" serial is drawing to a close. Tonight is shown the 15th chapter, entitled "The Human Tiger." This is Metro's famous serial that has got everyone speculating as to who is the "Crimson Stain." Maurice Costello and Ethel Grandin are the leading characters. "Destiny's Boomerang" is a 3 act Western and Indian drama of excitement. These Mutual Westerners are thrilling all the way through. "Every Lassie Has A Love" is a Mutual Star comedy full of laughs and more laughs.

# FREE STATE HEALTH EXHIBIT IS HERE TONIGHT

Today is offered the first opportunity to see the Ohio State Public Health Exhibit in the High School building. This afternoon it will be open to the public and this evening there will be a special program, the opening number of which will be the "Bridal Chorus" from the "Rose Maiden", sung by the Community Chorus at 7:30. W. H. Dittoe, of Columbus, will talk on "Municipal Sanitation." He is chief engineer of the State Board of Health. The lecture will be illustrated with stereoscopic views and there will be a moving picture, "The Error of Omission." Everything is free.

"The care of the public health has become the highest duty of the state." Such is the declaration of a large electric sign, to be hung in front of the High School while the Health Exhibit is being shown there today, tomorrow, Thursday and Friday. Therefore, the state sends the exhibit of electrical devices, charts, models, etc., for us to see for ourselves, the effects of disease and how it can be prevented.

Prevention of blindness is explained by charts. Much blindness is from lack of proper care of babies' eyes. Oral hygiene, tuberculosis, communicable diseases, such as scarlet fever, diphtheria, typhoid fever, measles, whooping cough and infantile paralysis, and many others, their causes and prevention, are explained by charts and photographs.

Free of charge to any one in the state, the Ohio State Board of Health will examine in their laboratories, in Columbus, samples of suspicious water, blood for malaria, sputum for tubercular in-

fections. In every community are stations where people may be supplied free, making outfits, for the proper sending of samples of sputum or blood to the laboratories. Instructions on the proper methods of sending will be furnished, too.

Animals suspected of having rabies are also examined at the laboratories. How many babies die every year? One out of every five. At the high school building every afternoon and evening except Thursday evening, and closing Friday night, you can see the fate of the fifth baby. It will be shown by a near-perpetual motion device. Now you see five baby dolls and now you see four. At least you will if you go to the high school.

Similar electrical devices will illustrate mortality from tuberculosis. Miss Catherine McNamara, public health nurse, who travels with the exhibit, will be on hand to aid in explaining the exhibit and in the mornings will instruct school children in the vital principles of keeping well. Henry J. Southmaid is director of the exhibit. Ten thousand miles have been covered by the Health Exhibit in its travels to instruct the 550,000 people who have seen it. Since September, 1913, the exhibit has been shown in places throughout the state.

The State Board of Health is a public servant and its members want to make everybody in their state well and happy. How is your health?

Are you interested in keeping good health? Then see the exhibit in the high school this week. It was brought here for you.

Seeds are all gone—that is, the supply at The Times office is. They went like hot cakes, too, and oh, how the garden club grew yesterday. Over one hundred new names were received.

Loretta Sell, 632 Seventh street, writes to The Times: "I want to let you know that I want to join the Peerless Garden Club. I am 11 years old."

Four crops on a spot of ground 15 by seven feet! That is what Mrs. C. F. Garrison, 1573 Fourth street, says she has raised, and this is the third year she is going to try it. She plants a radish seed between every two onions. As she uses the onions, and then the radishes, she replaces them with lettuce, and this crop is superseded by tomato plants.

## THE VOLUNTEER AND THE REGULAR

Pressure for providing for the formation of a volunteer army is getting so insistent that indications the administration is giving considerable heed is shown in the tentative announcement from Washington that men will be allowed to volunteer for the term of the war, but they will be incorporated into the regular army for the time being.

This may be spoken of as acknowledging the shadow without conceding the substance of the volunteer system. It does not admit the formation of separate volunteer companies, corps, brigades and armies, but swallows up the recruit in the regular formations.

Claims for the volunteer plan are that it allows all of those who would fight to enlist as they may, it gives a peculiar character and distinction, fights only when there is fighting to be done and avoids the noxious life of the regular, perhaps, for years after peace has been won. Further than that it inspires to individual rivalry and valor. The volunteer would strive to out do the regular, Ironton would strive to lead Portsmouth and Kentucky would never permit herself to be outdone by Ohio. But, after all, the volunteer idea may have taken its present strongest hold upon the public because of the fascination that hangs about the personality of Theodore Roosevelt. It must be conceded everybody wants to see him fighting and fighting at the head of men, whom he has drawn about him because he is their ideal of a fighter and a leader.

On the other hand it is insisted war, in these modern times, like everything else, has become specialized. It is a machine that must be assembled, geared, set and worked to an exact and harmonious unit from all its parts. Further, it must be admitted, the most thoroughly organized fighting machine in all the world is the one we have to encounter. Our hope of overcoming it lies in creating another, not alone its equal, but its superior. Lastly, those whose business is the science of war and to whom we must depend upon for leadership are unanimously in favoring and insisting on a regular army solely. It does not bode the best to insurg against them at the very start. We must remember it is our mission to win the war, not to seek the gratification of seeing our untrained fancies and theories tried out. The rank and file must follow in the beginning, because none as yet has proved capacity to be in the van.

Considering these divergent views, only one safe course presents itself and that is to accept ungrudgingly and unquestionably whatever chart is presented by the government.

Some officers are expressing disapprobation of congress because it hasn't its war measures already made. An army officer ought to be the last to fault find in this respect. War preparations seemingly proceed mightily slowly these times, military no quicker than legislative, as the untrained mind views in either respect. Congress has done nobly and is going ahead just as fast as it reasonably and safely can.

Of course the Peerless just had to get in with the thrill of a German spy and the contemplated explosion about public and munition works. There is one indisputable solemn fact, whether the person arrested be guilty or not, and that is spies and enemies are likely to appear anywhere, according to the favorite practices of the Kaiser's government and behooves every citizen to keep his eyes open all the time and report promptly any suspicious person or action.

An exchange tells its legislature it may adjourn whenever it is ready. That is the trouble, legislatures never adjourn until they are good and ready and have done about all the mischief possible.

If the chasers the government is going to build show the U-boats there is plenty of room at the bottom all will be well.

A pessimistic contemporary sees all Europe adopting the daylight saving scheme because it is about all they have to save.

Young Morgan offers to lend the government a million without interest. Well, every little helps.

You just can't stop some people. There are those still demanding a vote on whether or not we shall go to war.

Among other mighty problems that confront the New Hampshire legislature are shall cats be licensed and a bounty placed on squirrels. Considering that an acre of New Hampshire soil will produce, on an average, enough nations to give a squirrel one square meal, the latter problem is really of moment.

Woodrow never thought it would come to that, but the Berlin papers are denouncing him as "the War Lord of America." Think of that about a man, who is so eminently for peace, that, like Grant, he will fight for it.

It wouldn't hurt a bit if more flags were displayed in Portsmouth.

If some way of showing how could only be devised of showing how as much food could be saved as will be raised by our Peerless Garden Club.

The railroads were granted a raise in rates last week. But we haven't heard a word for two weeks about the raising of that new station.

## SHOULDER TO SHOULDER

## THE BIRTH OF A NATION

We saw the much talked of Birth of a Nation film down in Cincinnati the other night. As a picture it is a wonderful creation, no doubt of that. The purely mechanical effects are unsurpassed and the historical representations are doubtless but little exaggerated, although decidedly more emphasis is laid upon the excesses of the negro race than upon the northern scoundrels and carpet baggers who urged them on to riot, robbery and assault. On the whole we are sorry that we saw the picture. It did not leave a single elevating thought, not a solitary pleasant memory. Rather the after impression was that of a horrid nightmare, and that impression was shared by the group of Ohio newspaper editors who were in our party. Looking back today, after the lapse of several days, we are confirmed in our original impression that no good can come from the exhibition of such a picture. It is bound to excite race feeling, it is bound to arouse feelings of antagonism in the minds of white people against the colored race as a whole, to visit indiscriminately upon the colored people of today suspicion born of the sins and the crimes of the minority of the newly freed race during the days of reconstruction. And, as stated, the fact is that those crimes and excesses were engineered and manipulated by vicious and irresponsible white carpet baggers, who slunk to the rear while the fighting was on and forged to the front when peace came.

We are sorry that we saw the picture. And we repeat, that we do not see wherein it can do any one any good to see it. If you do not on nightmares, you will get your fill in the representation.

Mexico has a sample of bone dry prohibition, that ought to satisfy the most ardent opponent of Demon Rum. A short while back General Murguia, commander of the Carranza forces about Chihuahua, issued an order that no liquor should be sold and anyone violating the order would be hung without trial. Three hardy souls took the chances and they were promptly hung.

Some people are always having ideas. Over in Connecticut they are seriously thinking of putting bells on cats so the birds may have warning of them being about. The Cleveland Plain Dealer thinks rats will heartily approve of the belling.

The Man with the Hoe can consider himself full brother to the Man with the Gun, when it comes to defending the country.

The offhand manner in which we set aside seven billion dollars as a beginning to this fracas must be at least a trifle amazing to our enemy, who figures in marks.

## BATH TUBS

(By George Martin)

There's just one thing wrong with our bath tubs. They're too slick.

You can't get a toe, hip, elbow, knee or shoulder hold worthy the name anywhere on one of the blasted things. Try as you will. It's no use. You don't stick. No matter where you get on, in or around a bath tub, you slip off. What we need more than anything else in this country today is, not judicial reform, not scientific food, not industrial, commercial and military preparedness, but good, rough bath tubs.

## THE GROWING GIRL

A girl when in her teens is passing through a critical period of her life. The transition from childhood to maturity is not always easy; consequently, in many cases health breaks down entirely and the girl goes into a decline and dies young. If she escapes this fate, she may fall into a state of permanent ill-health. It is of the utmost importance, in order to insure normal and healthy development, that proper precautions be taken, and nothing has proved more helpful than the faithful use of Lydia E. Pinkham's Vegetable Compound, the great woman's medicine and tonic.

## NEW-YORK-DAY-BY-DAY

O.O. MCINTYRE.

New York, April 17.—The White Society of Illustrators gave their annual dinner at the Majestic the other night and each and every man offered his services to the country.

Charles Dana Gibson, James Montague, Henry Raleigh, Arthur Brown, Howard Chandler Christy, Justus Martin and Alonzo Kimball were among those who offered their services in any way the president saw fit.

If these men go to war there will be most unusual opportunities for the aspiring young illustrator who declares that he never gets a chance.

Many of the comic artists also pledged their services at the dinner and the great reading public may also be deprived for a time of their favorite comic strip.

A million New York Jews celebrated the Passover. The celebration of the deliverance of the first-born of Israel from the judgment wrought by divine wrath on their oppressors and the wondrous liberation of the Hebrews from Egyptian bondage is an inspiring sight in New York.

Around the joyous "Seder" banquet table, by evening candlelight, thousands of good Israelite families gathered to partake of the traditional unleavened bread (matzah) and bitter herbs. The men and boys kept their head covering on, and father reclines on soft cushions.

There's a 2,500 year old reason for it all, as well as for the quaint ceremonial preparations that have been in progress for a week before the event. This year there was double joy in the Passover, because the miracle of Egypt has been repeated in the wondrous dawn of Russian Freedom.

The "knock wood" superstition is said to date back to the days of sybilism, when oak, ash and rowan were sacred trees, whose deities would come to the assistance of the knocker.

You may soon miss these pretty faces on the cover of your favorite magazine. The ranks of the foremost illustrators are soon to be depleted by the call to the colors. The

Over the garden fence the conversation had suddenly turned serious.

"An' if yore boy, 'Erbert, ties any more cans to our pore dog's tail," was Mrs. Moggins's stern ultimatum, "e'll 'ear about it, that's all. Oh, an' per'aps you've done wit that saucenap you borrowed last Monday."

"'Erbert," asked Mrs. Grabb shrilly, "wot 'ave you bin doin' to Mrs. Moggins's dog?"

"'Nothin', ma!" replied the small boy, unblushingly.

"There!" said his mother triumphantly.

"An' you returned 'er saucenap yesterday, didn't you, dearie?"

"Sent it back by 'er dog!" said 'Erbert calmly.—Chicago News.

## Disastrous Experiment

A farmer tells a story of his shooting. Says he:

"I was very much troubled with those winged thieves (the birds), for they made terrible havoc among the corn. I put scarecrows up till I was tired, so I took my gun, loaded with powder and pellets, and you should have seen the quantity I brought down in one day. One morning my boy rushed indoors and yelled:

"'Dad, hundreds of birds among the corn!"

"I took my gun, put in powder, but could not find the shot, so I thrust in a handful of tacks and off I ran. Getting to the corn, I yelled pretty hard, and up flew the birds into a tree. Being excited, I fired, and behold every bird was nailed to the tree, with their wings flapping as if flying. Struck with the sight, I stood watching them, when the blessed things pulled up the tree and flew away with it, leaving me in disgust."—New York Globe.

### More Sailors Sent To Atlantic Coast

Chicago, April 17.—Fourteen hundred sailors from the Great Lakes naval training station left today for the Atlantic coast to be assigned to battleships of the Atlantic fleet. Today's contingent makes the total that have gone from Chicago since the severance of diplomatic relations with Germany, up to 5,000. There are 10,000 men in training at the station and accommodations for 10,000 more are being rushed.

## OFFICIALS CLAIM THE BERLIN STRIKE HAS FIZZLED OUT

Amsterdam, April 17.—Berlin's general strike is crippling the output of metal and wood and tying up transportation, facilities according to dispatches received here. Details were meagre. There was no confirmation of one report of disorders in the German capital.

The general strike had long been expected, the radical Socialists having announced it as a protest against the 25 per cent cut in the bread ration put into effect Sunday.

Semi-official dispatches, however, insisted that the strike had affected very few industries and that it was without general public support. In this connection, copies of the German Socialist organ Vorwarts, received today, contained this editorial:

"Internal disturbances in Germany at this moment would be calculated deeply to disturb Socialists peace work. The vain hope that Germany in a few months might see occurrences similar to those in Russia might again postpone the end of the war."

## COX APPOINTS OHIO WAR FOOD CABINET

Columbus, O., April 17.—Ohio's "war food cabinet" has been appointed by Governor Cox. It will be composed of W. O. Thompson, president of Ohio State University; Clark S. Wheeler, head of agricultural extension department, Ohio State University; Alfred Vivian, dean of the agricultural college, Ohio State University; L. J. Taher, Barnesville, master of the Ohio Grange and C. G. Williams, of the State Agricultural Experiment Station at Wooster. Members receive no pay.

Wheeler today announced the state has been laid out into 55 "agricultural districts" and 21 "labor" districts. Each district will have an agricultural expert to assist county food agents.

In the labor districts, branch bureaus of the state-free employment department will be established.

## KAISER SOON TO MAKE KNOWN PEACE TERMS

Christiania, April 17.—Germany is shortly to issue to neutrals a statement of the terms on which she considers peace negotiable, according to rumors in diplomatic circles today. The reports came from sources known to be closely identified with the German officials' plans.

Those closest in touch with the German movement here had not heard any details of what Germany proposes to offer. They did not believe, however, that there would be many concessions from

the unofficial, but highly inspired, outlines of Germany's demands given out both at Washington and in Germany at the time of Von Bethmann-Hollweg's famous peace tender last December.

Scandinavia is the center of Germany's peace efforts aimed at Russia. That the Teutonic officials are making every effort to realization of their hope of separate peace with the new provisional government at Petrograd is apparent in every quarter here.

American diplomatic officials have been formally advised that the German government is behind

the pseudo-Socialist movement for peace. It was the German government that apparently started the Socialist propaganda work and it was the German government that pushed it by active support.

Count Von Bernstorff, prime apostle of peace propaganda work, has been selected as German ambassador to Sweden, purely in line with this Russian effort. Meanwhile German propagandists of lesser caliber spread reports of Germany's desire for peace—carefully avoiding, however, any statement of terms.

## AMERICA'S PART IN "BIG PUSH" TO BE DISCUSSED AT MEETING

Washington, D. C., April 17.—America's part in the "big push" which is hurling German troops back from their long established lines in France, keeping Teutonic commerce off the seas, and arraying the republics of the world against the kaiser, will be under discussion here within the next 24 hours.

Food and fighting forces are yet to really be mobilized, but all efforts are being directed toward a single goal.

Chicago packers have offered to turn their vast meat industry over to the government and permit the fixing of prices.

J. Ogden Armour today suggested one meatless day a week as a means of conserving America's food supply.

The arrival of the British and French war commissions is anticipated today or tomorrow.

Meantime the senate is expected to pass the war bond bill, making available a gigantic loan to the allies, as well as providing for America's financing of the war against Germany.

The high commissions of both England and France will be housed in two mansions in the most select part of Washington.

Special care has been taken to guard the commissioners. In some quarters it was suggested that placing them in private houses was due to a desire to shield them both from the curious and from possible cranks.

In congress sentiment on test votes in the house military committee shows a majority favoring a stronger provision for volunteering than the administration army bill already provides. Opposition to the selective draft idea, however, will be overcome, according to confident predictions.

Governor Cox today ordered all county food agents to select sub-agents in every township to help stimulate back yard gardening.

District experts and county food agents will meet here Wednesday to receive orders and instructions from the "food cabinet."

Ohio State University faculty late yesterday agreed to free "ag" students from further school work this year, in order that they may go to work on Ohio farms. Other colleges throughout the state will be asked to follow the same plan, it was said today.

Y. M. C. A.'s in many counties are doing their "bit" in assisting the administration to stimulate "back to the soil" spirit.

## POLITICS MAY BEAT ARMY DRAFT PLAN

Washington, April 17.—Politics may beat the conscription army plan.

Growing fear on the part of many congressmen that they could no longer face their constituents with an "I kept you out of war" plan, should they vote for conscription, made it appear inevitable today that the volunteer plan will be given a trial first.

The compromise which seems likely to go through, will be authorization for the president to call for 500,000 to one million volunteers immediately, to be raised within ninety days.

At the same time the machinery for conscription will be authorized and put into motion, so that if the volunteer system doesn't work within ninety days, conscription could be put into effect immediately thereafter.

The senate, on the other hand, appears more favorably inclined to the conscription plan. Senator Chamberlain believes there is only one vote in the senate military committee which favors a compromise. Chamberlain feels there is sufficient volunteer provision in the bill to give that system thorough test, while the actual work of preparing for conscription is being done.

It was indicated today that the senate committee will not wait for the house committee's action on the bill much longer. The situation is better in hand, for the administration's view-point, in the senate, than in the house, and it will be that the upper branch will get the jump and pass the whole buck up to the house.

Unless President Wilson and Secretary Baker weaken and accept a trial of the volunteer system, it appears likely that there will be considerable debate on the army bill and it probably won't become a law for some

### TIRED OF SOCIETY: NURSES WOUNDED

Mrs. Joseph A. Blake. She is the idol of France's shattered heroes, is Mrs. Joseph A. Blake, the former wife of Clarence Mackay, telegraph magnate, and now married to one of the surgeons in the American hospital in Paris. And by her own words she is happier now caring for her husband's charges than she has ever been before.

A popular demand that Theodore Roosevelt be permitted to lead a division abroad as soon as he can raise it, has sprung all over the central west, if a rush of telegrams and letters here are to be accepted as showing which way the wind blows.

## NIVELLE'S FORCES CAPTURE 10,000 GERMAN PRISONERS ITALIANS ALSO START DRIVE

(BULLETIN)

Rome, April 17.—Italy may be starting an offensive, timed to catch the Teutons when they are directly in need of men to withstand the great Franco-British push on the western front.

Advices here from Switzerland today reported the Italian artillery extremely active on the Isonzo front. One dispatch significantly mentioned a large number of Austrians taken prisoners by the Italian forces. Heavy losses were said to have been sustained among the Austrians by the concentrated Italian gunfire.

London, April 17.—The greatest offensive of the greatest of all wars was on today. Over a front of nearly 170 miles, Franco-British forces were driving with all the strength of energy carefully contrived through months of winter preparation. Forecast through four days of tremendous artillery concentration the French movement began with a brilliant victory despite the most desperate resistance from the German defenders.

Leon, one of the most important of the center supply stations on the German lines, is now added to the list of German key-points, directly menaced by the Franco-British attack. It was apparently the direct objective of the first smash with which General Nivelle threw his massed forces against the enemy. That tremendous blow swept the Germans off their feet, forced them back on the defending Teutons and so firmly established the French attacking forces that hurriedly summoned German counter-attacks could not dislodge them from the ground they gained.

London was thrilled today with the actual start of the greatest of offensives—the forward thrust for which every man, woman and child in the British empire has been working and sacrificing for the past six months. At least three million of France's and England's best troops are probably fighting along this gigantic front. More guns than the world has ever known before in one operation are belching forth death over this stretch of 170 miles.

It was along the famous "Aisne line" that the French made their greatest advances in the first blows struck by General Nivelle. It was here that the Germans stood firm after the retreat following the battle of the Marne.

The point of Nivelle's wedge was pushed into the German line at a point about mid-way between the Soissons and Rheims, with another smashing blow struck coincidentally around Berry-An-Bac, where the German line turns and twists around Rheims. Ten thousand prisoners and a great quantity of supplies captured attested the irresistible force of these two great blows.

Meantime the British forces have not stopped the force of their own drive. Like a skillful boxer, General Haig was "mixing" his blows today on the

tire British front of fifty odd miles. Battlefront dispatches indicated the perfect co-ordination of the Franco-British drive in the synchronous attacks of both great armies. Haig was smashing away with Lens almost in his grasp; he smashed again nearer Cambrai; he pushed forward north of St. Quentin.

London, April 17.—Today Haig's British forces a mile closer to Le Cateau and the main line of German communications between Cambrai and St. Quentin.

"In the neighborhood of Ephegy we captured Tambuis farm and at night gained ground along the spur northeast of Ephegy station, taking a few prisoners," he reported today.

All the way from Fayet, a scant two miles north of St. Quentin to Ephegy—eleven miles north—the British now are established within two miles of the St. Quentin-Cambrai high road. The road is really the artery giving life to the German forces at St. Quentin and La Fere. Once it is cut the cities below must fall.

British now hold Fayet, Fresnoy-Le-Petit Ponton, Levergnier, Villers, ground near Hargicourt, Ronnoy, and today ground near Ephegy. All are nearly equidistant from this "Hindenburg line" of Cambrai-St. Quentin.

Paris, April 17.—Still driving ahead French forces today conquered the positions they conquered in the first smash of their offensive, today's official statement asserted.

Strong counter-attacks in this region—between Soissons and Rheims—were repulsed. These were particularly desperate in their intensity in the neighborhood of Ailles and Courcy. The German attackers sustained heavy losses.

### Expect Roosevelt To Make Direct Plea At Chicago April 28

Chicago, April 17.—What will probably be Colonel Roosevelt's first direct plea to the country to get behind the colors, will be made here April 28, when he addresses a gigantic patriotic and recruiting rally at the stock yards amphitheatre. The Colonel will speak under the auspices of the National Security League. He will be in Chicago practically all day Saturday and Sunday and will hold informal conferences with leaders interested in his plans for an army division in France.

## THE VOLUNTEER AND THE REGULAR

Pressure for providing for the formation of a volunteer army is getting so insistent that indications the administration is giving considerable heed is shown in the tentative announcement from Washington that men will be allowed to volunteer for the term of the war, but they will be incorporated into the regular army for the time being.

This may be spoken of as acknowledging the shadow without conceding the substance of the volunteer system. It does not admit the formation of separate volunteer companies, corps, brigades and armies, but swallows up the recruit in the regular formations.

Claims for the volunteer plan are that it allows all of those who would fight to enlist as they may, it gives a peculiar character and distinction, fights only when there is fighting to be done and avoids the noxious life of the regular, perhaps, for years after peace has been won. Further than that it inspires to individual rivalry and valor. The volunteer would strive to out do the regular, Ironton would strive to lead Portsmouth and Kentucky would never permit herself to be outdone by Ohio. But, after all, the volunteer idea may have taken its present strongest hold upon the public because of the fascination that hangs about the personality of Theodore Roosevelt. It must be conceded everybody wants to see him fighting and fighting at the head of men, whom he has drawn about him because he is their ideal of a fighter and a leader.

On the other hand it is insisted war, in these modern times, like everything else, has become specialized. It is a machine that must be assembled, geared, set and worked to an exact and harmonious unit from all its parts. Further, it must be admitted, the most thoroughly organized fighting machine in all the world is the one we have to encounter. Our hope of overcoming it lies in creating another, not alone its equal, but its superior. Lastly, those whose business is the science of war and to whom we must depend upon for leadership are unanimously in favoring and insisting on a regular army solely. It does not bode the best to insurge against them at the very start. We must remember it is our mission to win the war, not to seek the gratification of seeing our untrained fancies and theories tried out. The rank and file must follow in the beginning, because none as yet has proved capacity to be in the van.

Considering these divergent views, only one safe course presents itself and that is to accept ungrudgingly and unquestionably whatever chart is presented by the government.

Some officers are expressing disapprobation of congress because it hasn't its war measures already made. An army officer ought to be the last to fault find in this respect. War preparations seemingly proceed mightily slowly these times, military no quicker than legislative, as the untrained mind views in either respect. Congress has done nobly and is going ahead just as fast as it reasonably and safely can.

Of course the Peerless just had to get in with the thrill of a German spy and the contemplated explosion about public and munition works. There is one indisputable solemn fact, whether the person arrested be guilty or not, and that is spies and enemies are likely to appear anywhere, according to the favorite practices of the Kaiser's government and behooves every citizen to keep his eyes open all the time and report promptly any suspicious person or action.

An exchange tells its legislature it may adjourn whenever it is ready. That is the trouble, legislatures never adjourn until they are good and ready and have done about all the mischief possible.

If the chasers the government is going to build show the U-boats there is plenty of room at the bottom all will be well.

A pessimistic contemporary sees all Europe adopting the daylight saving scheme because it is about all they have to save.

Young Morgan offers to lend the government a million without interest. Well, every little helps.

You just can't stop some people. There are those still demanding a vote on whether or not we shall go to war.

Among other mighty problems that confront the New Hampshire legislature are shall cats be licensed and a bounty placed on squirrels. Considering that an acre of New Hampshire soil will produce, on an average, enough nibblings to give a squirrel one square meal, the latter problem is really of moment.

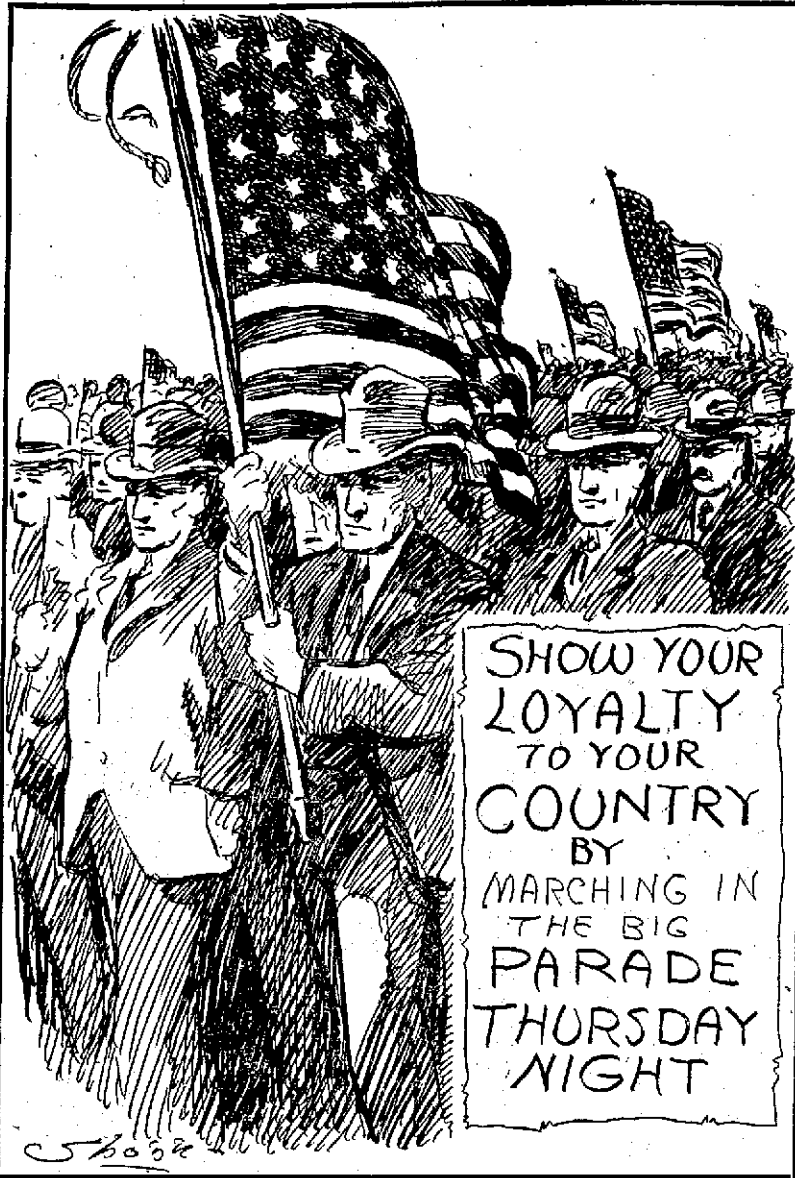

Woodrow never thought it would come to that, but the Berlin papers are denouncing him as "the War Lord of America." Think of that about a man, who is so eminently for peace, that, like Grant, he will fight for it.

It wouldn't hurt a bit if more flags were displayed in Portsmouth.

If some way of showing how could only be devised of showing how as much food could be saved as be raised by our Peerless Garden Club.

The railroads were granted a raise in rates last week. But we haven't heard a word for two weeks about the raising of that new action.

## SHOULDER TO SHOULDER

## THE BIRTH OF A NATION

We saw the much talked of Birth of a Nation film down in Cincinnati the other night. As a picture it is a wonderful creation, no doubt of that. The purely mechanical effects are unsurpassed and the historical representations are doubtless but little exaggerated, although decidedly more emphasis is laid upon the excesses of the negro race than upon the northern sealawags and carpet baggers who urged them on to riot, robbery and assault. On the whole we are sorry that we saw the picture. It did not leave a single elevating thought, not a solitary pleasant memory. Rather the after impression was that of a horrid nightmare, and that impression was shared by the group of Ohio newspaper editors who were in our party. Looking back today, after the lapse of several days, we are confirmed in our original impression that no good can come from the exhibition of such a picture. It is bound to excite race feeling, it is bound to arouse feelings of antagonism in the minds of white people against the colored race as a whole, to visit indiscriminately upon the colored people of today suspicion born of the sins and the crimes of the minority of the newly freed race during the days of reconstruction. And, as stated, the fact is that those crimes and excesses were engineered and manipulated by vicious and irresponsible white carpet baggers, who slunk to the rear while the fighting was on and forged to the front when peace came.

We are sorry that we saw the picture. And we repeat, that we do not see wherein it can do any one any good to see it. If you dote on nightmares, you will get your fill in the representation.

Mexico has a sample of bone dry prohibition, that ought to satisfy the most ardent opponent of Demon Rum. A short while back General Merguia, commander of the Carranza forces about Chihuahua, issued an order that no liquor should be sold and anyone violating the order would be hung without trial. Three hardy souls took the chances and they were promptly hung.

Some people are always having ideas. Over in Connecticut they are seriously thinking of putting bells on cats so the birds may have warning of them being about. The Cleveland Plain Dealer thinks rats will heartily approve of the belling.

The Man with the Hoe can consider himself full brother to the Man with the Gun, when it comes to defending the country.

The offhand manner in which we set aside seven billion dollars as a beginning to this fracas must be at least a trifle amazing to our enemy, who figures in marks.

## BATH TUBS

(By George Martin)

There's just one thing wrong with our bath tubs. They're too slick.

You can't get a toe, hip, elbow knee or shoulder hold worthy the name anywhere on one of the blasted things. Try as you will. It's no use. You don't stick. No matter where you get on, in or around a bath tub, you slip off. What we need more than anything else in this country today is, not judicial reform, not scientific food, not industrial, commercial and military preparedness, but good, rough bath tubs.

## NEW-YORK-DAY-BY-DAY

O-O-MEINTYRE.

New York, April 17.—The White Society of Illustrators gave their away is sloppy with tears. The famous Jacks—the all night care—is now bone dry after 4 a. m. The news became known in this wise. Corse Payton, who admits he is America's best bad actor, strolled into Jack's at 4:03 the other morning.

He hung his eera Alpine hat on one chair and draped his magenta box top coat over the second chair, threw his lemon toned stick with the silver bust of Booth for a handle across the third chair and sat himself down in the fourth chair.

"Jackson," began Payton wearily, to the soulful eyed waiter who approached. "I'm all in. Bring me either three Five Stars with a siphon or—"

"Sorry, Mr. Payton," broke in Jackson, "but on the orders of Mr. Jack Dunstan we—"

"Either three Five Stars with a siphon," interrupted Mr. Payton, dipping out his copy of the ten cent edition of the Morning Telegraph and scanning the columns for some slight mention of Mr. Payton therein, "or five Three Stars and a bottle of soda. I care not which I—"

"Orders of Mr. Dunstan—Mr. Jack—sir, that no drinks are to—"

"Varlet," thundered Payton. "I did not come here for conversation. I came for lighted rejuvenation. Bring me five drinks of Three Star and three drinks of Five Star and never mind about the siphon and soda."

It was at this point that the tired waiter got the ultimatum across and Mr. Payton grasped it. There are to be no more drinks after 4 p. m. When the news reached the diners in the Rosemary Room, the Bartling Nelson Grill, the Three Rousing Cheers Room and the Scrambled Eggs and Irish Bacon Room, many of them just busted right out crying. And then Jack—himself—appeared and told them that Jackson had spoken the truth. And furthermore, in a short while he intends to lighten the rule of 4 o'clock. And out of the east broke the pitiless day.

You may soon miss those pretty faces on the cover of your favorite magazine. The ranks of the foremost illustrators are soon to be depleted by the call to the colors. The

million New York Jews celebrated the Passover. The celebration of the deliverance of the first-born of Israel from the judgment wrought by divine wrath on their oppressors and the wondrous liberation of the Hebrews from Egyptian bondage is an inspiring sight in New York.

Around the joyous "Seder" banquet table, by evening candlelight, thousands of good Israelitish families gathered to partake of the traditional unleavened bread (matzo) and bitter herbs. The men and boys keep their head covering on, and father reclines on soft cushions.

There's a 2,500 year old reason for it all, as well as for the quaint ceremonial preparations that have been in progress for a week before the event. This year there was double joy in the Passover, because the miracle of Egypt has been repeated in the wondrous dawn of Russian Freedom.

"An' you returned 'er saucenpan yesterday, didn't you, dearie?" "Sent it back by 'er dog!" said 'Erbert calmly.—Chicago News.

Where They Get Their Nerve

Some people have plenty of nerve, but it is all in their teeth.

Disastrous Experiment

A farmer tells a story of his shooting. Says he:

"I was very much troubled with those winged thieves (the birds), for they made terrible havoc among the corn. I put scarecrows up till I was tired, so I took my gun, loaded with powder and pellets, and you should have seen the quantity I brought down in one day. One morning my boy rushed indoors and yelled:

"'Dad, hundreds of birds among the corn!"

"I took my gun, put in powder, but could not find the shot, so I thrust in a handful of tacks and off I ran. Getting to the corn, I yelled pretty hard, and up flew the birds into a tree. Being excited, I fired, and behold every bird was nailed to the tree, with their wings flapping as if flying. Struck with the sight, I stood watching them, when the blessed things pulled up the tree and flew away with it, leaving me in disgust."—New York Globe.

At the Front

The hobo-knocked at the back door, and the lady of the house appeared.

"Lady," he said, "I was at the front."

"You poor man!" she said. "One of war's victims! Wait till I get you some food, and you shall tell me your story. You were in the trenches, you say?"

"Not in the trenches. I was at the front."

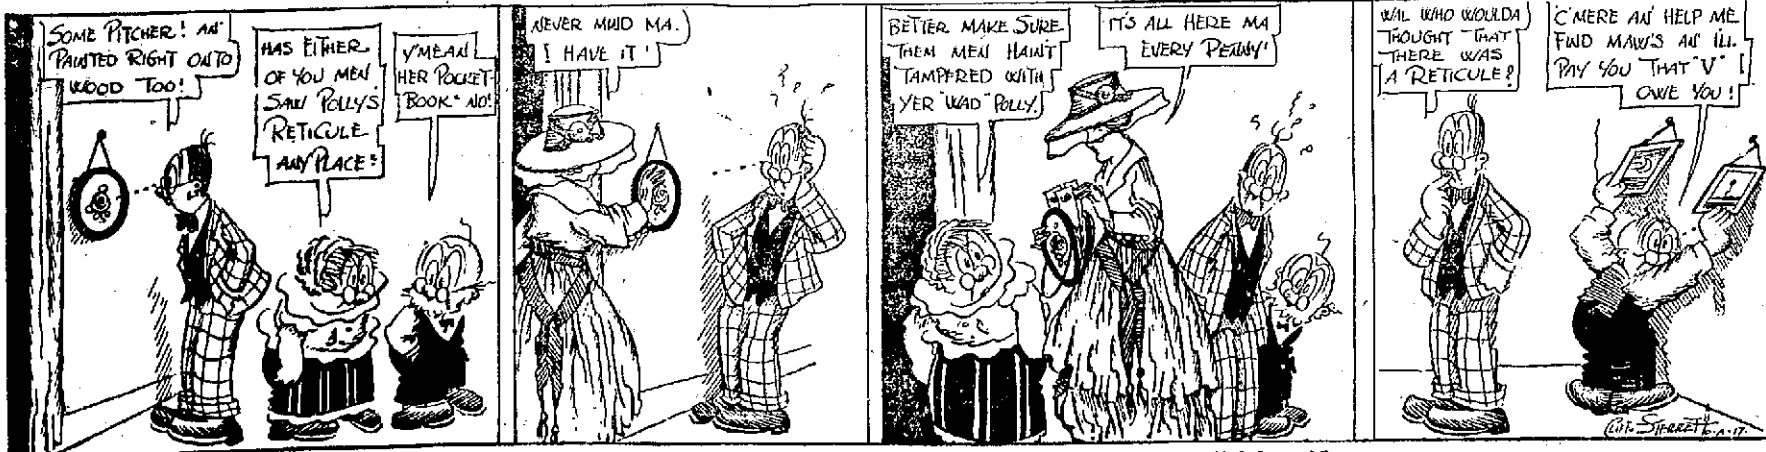

"Don't try to talk with your mouth full. Take your time. What deed of heroism did you do at the front?"

"Why, I knocked 'em I couldn't make nobody came around to the back."

# FREE STATE HEALTH EXHIBIT OPENS HERE TODAY

## Fine Program Is Ready For Tonight

Today is offered the first opportunity to see the Ohio State Public Health Exhibit in the High School building. This afternoon it will be open to the public and this evening there will be a special program, the opening number of which will be the "Bridal Chorus" from the "Rose Maiden," sung by the Community Chorus at 7:30. W. H. Dittoe, of Columbus, will talk on "Municipal Sanitation." He is chief engineer of the State Board of Health. The lecture will be illustrated with stereopticon views and there will be a moving picture, "The Error of Omission." Everything is free.

"The care of the public health has become the highest duty of the state." Such is the declaration of a large electric sign, to be hung in front of the High School while the Health Exhibit is being shown there today, tomorrow, Thursday and Friday. Therefore

the state sends the exhibit of electrical devices, charts, models, etc., for us to see for ourselves, the effects of disease and how it can be prevented.

Prevention of blindness is explained by charts. Much blindness is from lack of proper care of babies' eyes. Oral hygiene, tuberculosis, communicable diseases, such as scarlet fever, diphtheria, typhoid fever, measles, whooping cough and infantile paralysis, and many others, their causes and prevention, are explained by charts and photographs.

Free of charge to any one in the state, the Ohio State Board of Health will examine in their laboratories, in Columbus, samples of suspicious water, blood for malaria, sputum for tubercular infections. In every community are stations where people may be supplied free, mailing outfits, for the proper sending of samples of sputum or blood to the laboratories. Instructions on the proper methods of sending will be furnished, too.

Orders have been received from Adjutant General George H. Wood's office, Columbus, by Capt. W. J. Keyes, Company K, Seventh Regiment, Ohio National Guards, asking for the discharge of all married men in the personnel of the company, or who have mothers or children dependent upon them.

In the case of men having dependents, Capt. Keyes said that a thorough investigation would be made before a release was granted.

Probabilities are that Company K will be recruited to a strength of one hundred and fifty, should a new order be placed in effect.

# Negro Who Shot At Officer May Be Notorious Desperado

The police believe that the negro, who was arrested by Officer Charles Flowers in Paradise Alley Monday afternoon, following a desperate fight, is none other than "Petersburg," one of the most famous characters that plies the district between Roscoe, Va., and Columbus, O.

"Petersburg," from the traditions that abound in the railroad construction camps, is one of the most brutal negro criminals on the road. Most every colored man is afraid of

"Petersburg." Whether this man is a character of fiction or whether he is real, remains for the police to find out.

A number of murders is accredited to "Petersburg," among which are, the police say, a colored man at De Von, W. Va., a negro at Circleville; a man at Tunnell No. 9 at Greenup, Ky. All of these murders have been accomplished within the past four years, it is said.

Bill Williams was the name given by the negro who was arrested by

Officer Charles Flowers Monday afternoon. The officer found a crap game in progress and broke it up. Williams became offensive and Flowers arrested him. Without warning, Williams attacked Flowers, threw the officer down and took an automatic away from him.

Then Williams, it is said, emptied the chamber of the pistol at the officer. Borrowing another gun, Flowers went after his man and got him.

At police court Williams has been identified as "Petersburg," the police say, and he is now being held pending investigations of the murders at the various points along the Norfolk and Western and Chesapeake and Ohio railroads.

A negro was arrested by the police in 1914, upon information secured from two negroes, who was believed to be "Petersburg." But on examination the next day, it was found that it was a case of mistaken identity.

# Loyalty Parade Is To Be For All In The Community

"This is your parade and my parade, and it is not a parade of this organization or that organization," L. C. Turley, of the general committee, said Tuesday in discussing the Loyalty Day parade, which is to be held by the citizens of Portsmouth Thursday evening, as a visible pledge of loyalty and support of the action taken by the United States toward Germany.

It is the individual parade. And organizations are only used to better handle the men and women that will march. Every man and woman in the city is asked and urged to turn out in this parade. It is a public demonstration of Portsmouth's patriotism.

This evening at seven-thirty o'clock the general committee and Grand Marshal, Capt. W. J. Keyes, will hold an important meeting at the city council chamber. Delegates from every organization in the city expecting to take part are expected to attend. Final arrangements will be made then. The time is short and it is of vital importance that every one assist in making the Loyalty Day parade the greatest event in the history of the city.

Citizens of Scioto county, Greenup county, Ky., and Lewis county, Ky., have been invited to take part in the mammoth demonstration. Indications are that several hundred visitors will be here from the towns and communities to help make it a decided success.

Promptly at seven thirty o'clock Thursday evening the various organizations and individuals will assemble at their appointed places along the streets crossing Eighth street. Near eight o'clock the parade will move.

At the Gallia street esplanade the parade will disband and the massed hands of the city will gather on the esplanade, together with the massed church choirs, where "The Star-Spangled Banner" and "America" will be sung. This will conclude the Loyalty Day exercises.

During the parade no automobiles or vehicles will be allowed within one block of the streets over which the parade will move.

A squad of one hundred plain clothes men will assist the police department in quelling disorders of any sort.

Everyone is asked to bring an American flag. Should you not be able to secure one, you are urged to join the marchers just the same. Do not let anything keep you away.

Children under sixteen years of age, who are not with organizations, will not be allowed in the parade.

The center of the esplanade will be reserved for the massed bands and the church choirs. No one will be allowed to enter this place except those for whom it is reserved.

Members of the various church choirs in the city are asked to be at the esplanade at seven-thirty, ready to form a great choral, to lead the public in singing the two national anthems.

Organizations who have not been assigned to a place in the parade are urged to call Chairman Mayor H. H. Kaps.

Watch The Times for all announcements and master every detail, so that the parade will move without a hitch of any sort.

Revised plan for the formation, etc., of the Sixth division was announced by Mayor H. H. Kaps, as follows:

Sixth Division forms on Gay street, north of Eighth street, facing it.

The Lewis Brass Band. This division will represent the Allen chapel and all other colored organizations and citizens.

The members of the Allen Chapel choir will report at the Gallia street esplanade at seven-thirty o'clock to join the massed choirs of the city.

## LIFELESS BODY OF NEGRO FOUND NEAR VERA BRIDGE

The badly mutilated body of a middle aged negro was found along the tracks of the Norfolk and Western railroad, near Vera, early Tuesday morning by the train crew of a northbound freight.

Coroner J. W. Daehler was called and went to the scene. A key ring, bearing the name of T. S. Sorsce, 560 Crawford street, Columbus, O., was found near the body.

It is supposed that the man was stealing a ride and fell beneath the wheels of a freight train.

Accidental death was the verdict of the coroner. The body was turned over to the county undertaker.

## WINNERS ENJOY LAUGH WHILE LOSERS HAD TO WASH BANQUET DISHES

Members of the Young Men's Bible Class of the German Evangelical church taught by William Hazlebeck, officers, orchestra and teachers of the Sunday School enjoyed a banquet in the basement of the Sunday School, Monday evening.

The banquet was the climax of a membership contest waged for

two months in Mr. Hazlebeck's class. The Reds won out by two points, the banquet and program being furnished by the Blues, the losers. Besides furnishing the banquet the losers had to wash dishes while the Reds and invited guests stood about and enjoyed hearty laughs.

The menu consisted of ham sandwiches, cheese, baked beans, potato chips, pickles, coffee, ice cream and cake. Interesting talks were made by Albert Smith, Louis Weiss, Rev. Samuel Lindemeyer, William Hazlebeck and Oscar Kah.

The committee in charge consisted of Frank Rowe, chairman, George Ahrend, Arthur Linck, Edward Bender, Hoyt Smith and Arthur Kugelmann.

### Accident Victim Better.

## Come Again To Tell All Of New Tonic

The Tanlac demonstrator is again in Portsmouth explaining the new tonic to the public daily at Fisher & Streich's Pharmacy.

After two years of continuous sale in Portsmouth the demand for Tanlac is sufficient to warrant the presence of a special representative. More than that, it is expected that the demand during the period that the demonstrator will be in the city and after that period, will surpass all previous records here.

This established demand is the best proof of the unusual merit that is claimed for Tanlac. If a product is tried and it withstands the test as Tanlac has, its merit should be proven. Tanlac has, for months and months, been sold to Portsmouth residents. They are satisfied with Tanlac's work. If they hadn't been satisfied, Tanlac's sales in Portsmouth would have dropped to nothing months ago.

### Hundreds Praise Tonic

Hundreds of Portsmouth people are now taking Tanlac and many who have tried it have given public statements about the new tonic having come to realize that others who suffer as they did should know about such a medicine.

Mrs. Lucille Licks, 822 Chillicothe street, is one of the satisfied users of Tanlac in Portsmouth. She says that health worries she had for years have been banished by Tanlac and she tells interestingly how the work was done by the new tonic. Her story follows:

"I have been helped by Tanlac and I want to aid others to get the same relief. I invite anyone who suffers from stomach worries as I did for several years to ask me about Tanlac and what they may expect from its use," Mrs. Licks said.

"I couldn't eat any kind of food that was the least bit rich. If I did I was sure to be sick. Most any kind of food made me feel bloated and uncomfortable. Why, sometimes I swelled up so much after eating that I had to loosen my clothing.

"Well, all that's over now and I've got to thank Tanlac for my relief. I've taken lots of medicines but I've derived more real good from Tanlac than from anything else I ever tried. I can eat any kind of food I care for now without any bloating or other bad effects afterward.

"I used to dread for night to come. Night didn't mean sleep and rest, I can tell you. Sleep was almost unknown to me. I've had awake many nights and wondered if I'd have a dull headache and a bad taste in my mouth the next morning. My color was getting bad.

### Feels Fine In Mornings

"The very first bottle of Tanlac besides helping my stomach as I said before, straightened up my nerves. I know I'm going to sleep and get a good rest when I go to bed at night now. I don't think I ever slept better in my life than I have since taking Tanlac. I feel fine and good when I get up in mornings now, too."

The Tanlac demonstrator will tell you all about the new tonic at Fisher & Streich's Pharmacy.

near Harrisonville, Monday.

The Boy Scouts of New Boston will meet this evening at the Christian church. Every member is urged to be present.

Bennett Kayser and Rev. O. L. King of the Terminals were visitors here Tuesday.

The Evening Star club met at the home of Miss Blanche Henry of Gallia avenue, Monday evening. The evening was spent in sewing and music after which refreshments were served. These present were Misses Edith Blume, Edna Lawson, Esta Kellner, Margaret Emmert, Elizabeth and Byron Taylor, Emma Nourse, Emma and Ruth Hayden and Blanche Henry.

Virginia and Alma Hurley spent Sunday with their aunt, Mrs. John Hurley of Rhodes avenue.

Work is progressing nicely on excavating for the new high school building in Glenwood addition.

A motion was voted on favorably for council to petition the county auditor for a re-appraisal of real estate in the village.

# Navy League Plans For Work

## FINE MEETING WAS HELD LAST NIGHT

The Federation of Women's clubs of Portsmouth and various women's organizations are planning to assist the Seaside county branch of The Navy League of the United States in building socks and making garments that are not supplied by the government for the men that are in the service of the United States Navy. This announcement was made by James W. Bannan, temporary president, at an enthusiastic meeting of the Navy League branch, held at the Public Library Monday evening, at which more than thirty members were present.

Arrangements were made to secure a donation downtown, where members will start the work of the League immediately. Arthur H. Bannan was appointed to secure a room.

When the room is secured, an advertising campaign will be started to secure recruits for the navy, and sewing machines will be installed, where the women will make things for the enlisted men.

Mr. Bannan explained that the purposes of the League, which is a national organization of thousands of members, was to encourage young men to enlist in the navy, to make articles of clothing not furnished by the government, and to furnish relief to the dependents of enlisted men.

Every man and woman in the city of Portsmouth is invited to become a member of the Navy League and to assist in the work. Those desiring to affiliate, should see Miss Ruth Thompson, Mrs. William H. Schwartz or H. C. Murfin.

"Patriotism is not charity," explained Mr. Bannan, in an address.

"Suppose a man saved your life at the risk of his own and at the expense of a mangled arm; suppose he helped him to a chair and bound his wounds; suppose you loaned him an old coat to shelter him from the weather while he was being taken home; would you call your action 'charity'? Would you consider that you had been stirred by feelings of compassion?"

"Suppose a sailor on a torpedo boat, surrounded by freezing spray, was made comfortable by a blue muffler, and yarn obtained from the Navy League's Comforts Committee. Would you call it 'charity'? Would you consider it compassion or pity that furnished the yarn and the knitted garment?"

"American seamen need no charity. It is not to be a worker for the Navy League's Committee of the Navy League is prompted or stirred by feelings of charity, do not take up the word. Do not buy yarn. Do not

knit. Keep away from the Comforts Committee. You are not wanted. "Do you realize that every time a blue-jacket stands a watch at sea he is doing it for you; do you realize that the lives of the entire ship's company may depend upon the comfort of the men on watch, and do you realize that if that ship's company happens to be lost, their lives are lost for you?"

"The United States Navy is the best fed and the best clothed navy in the world. Everything that is necessary for the health and efficiency of the individual is supplied by the government so far as is possible. There are many good reasons why such things as mufflers and wristlets are not supplied to the men in our navy, or the men in any other navy. There must be a limit to the articles of clothing given to the men. Our government cannot give every blue-jacket a Saratoga trunk, a few hat boxes and some umbrellas. There are certain intimate things which every individual feels are entirely personal to himself and add to his own comfort; in this case comfort is efficiency plus.

"Did you ever go to West Point or Annapolis and visit the rooms used by the cadets or midshipmen? If you did you noticed that there were no pin cushions on a dressing case, but you didn't think there were no pins used. The border line between utility and luxury is as hard to define as that between sanity and insanity. There are times when articles of comfort might be classed as luxuries and the other way around.

"It is a small thing after all that you are asked to do, but let it first of all be considered that the noble women who are on the Comforts Committee of the Navy League are patriots. They think patriotism and what is more to the point they act patriotically. No thought of charity enters their minds. If they were not women, they are of the kind who would be on the ships doing their part, or in the trenches ready to 'go over the top'."

"That is the kind of humanity that animates the workers of the Comforts Committee. If they were fighters, they would fight as hard as they work. If they were shirkers they would not be working at all for this cause, but they might be making loaded pin cushions for some benighted heathen who never saw a pin in his life, or embroidering slippers for some unmarried curate who already had a closet full of slippers.

"It is true that 'Charity' suffers long and is kind; also that 'Charity' begins at home, too, and the home of patriotism follows her flag. Let us repeat the sentiment expressed in print, when the announcement of the Navy League's Comforts Committee was first made:

No Charity is asked of the people of the United States at this juncture, but a visible material patriotism is demanded.

All Knights of Pythias of the city and county are urged to meet promptly at 7 p. m. Thursday at Third and Chilli-oth to take part in Loyalty Parade. Bring flags. Signed, RALPH G. JOHNSON, Special Deputy.

## NEW BOSTON

Vernon Smith will lead the prayer meeting services at the Christian church Wednesday evening. The subject for the evening is "The Pentecostal Community." All are cordially invited. After the services the "Training for Service" class will meet.

Miss Mary Hayden, who sprained her ankle, several days ago, is getting along nicely.

O. D. Chinn is having his house on Gallia avenue, repainted.

Members of the Baptist church are preparing for a revival meeting which will be held in the near future. Cottage prayer meetings are being held at different homes during the week and the next meeting will be at the home of Mr. and Mrs. Harley Black, of Harrisonville avenue, Friday evening. All members should attend.

Miss Virginia Hovey of Sedalia, Missouri, and Mrs. W. R. Jones of Portsmouth, were the dinner guests Tuesday of Mr. and Mrs. Chas. Stricklett of Rhodes avenue.

Earl Fischback, clerk at Coburn's pharmacy is still waiting for the stranger who took his order for a suit of clothes and \$3 down, to return. About 2 months ago a man giving the name of Martin who said he was representing a large Chicago tailoring firm, arrived in the village soliciting suit orders, the person

giving the order paying the agent \$3. The suit was to be delivered in three weeks when \$3 more was to be paid. The suit or agent has never shown up.

### Council

Council at their regular meeting waded through seven long resolutions for the paving of Pine, Spruce, Cedar and New Center streets, Lakeview avenue, Milldale Road and Stanton avenue. The resolutions are duplicates of the old legislation passed several months ago and have to be passed on account of paving bids being higher than estimates.

A request from Mrs. Eliza King that a sanitary sewer be laid in the rear of her property on Harrisonville avenue, was referred to the sewer committee. L. C. Turley was present and told Council that Mr. Jordan and himself, were only waiting word from the street committee and the village engineer to go ahead with the work of putting a two foot fill on Milldale Road.

Attorney Harry W. Miller of the law firm, Miller, Miller, Seard and Marting, filed a protest against the paving of Milldale Road in behalf of L. D. York and the Portsmouth Street Railway and Light Company, the protest setting forth that their abutting property would not be benefited by the improvement.

W. W. Skelton presented a claim of \$300 for damages to property on Spruce street growing out of the paving of the street. The law and claims committee will investigate. Solicitor Crawford asked members of the law and claims committee to give their assistance in the Mrs. Lucetta Truter damage suit against the village.

Solicitor Crawford was ordered to bring in an ordinance providing for a \$10,000 bond issue for the construction and maintenance of sewers the first of which are to be laid in Millbrook and Highland additions. Engineer Kinley was instructed to have the water main in the alley north of Oak street lowered. Engineer Kinley reported temporary water mains laid in Millbrook addition.

A motion was voted on favorably for council to petition the county auditor for a re-appraisal of real estate in the village.

Mrs. Thurman Emory of Harrisonville avenue, is suffering with neuralgia.

## So Many Boys Came For Hike That Wiener Supply Ran Out

Boys, Boys everywhere and not enough "wiener" in town.

The boys of the Brighton Portsmouth League, who were to have had a hike and wiener roast yesterday afternoon, had the hike, all right, but the members brought so many of their friends along, one surely would have thought they had adopted the slogan of the Business Men's Association to "come and bring one." Mrs. Frank Price, chairman of the committee of women in charge of the league, Director H. D. Wehrly, of the Bureau, and M. H. F. Kinsey, master of Boy Scouts, expected no more than the membership would turn out.

But to the High school building they came, at the appointed hour, like the grains of a whirling sandstorm.

The love of their city, and the desire to make it brighter and cleaner?

The joy of a hike!

The longing for wieners? Which? Maybe every one of the three was an equal inducement. But what could the poor leaders do? There were not enough wieners in the city of Portsmouth. The butchers gaped, the Boy Scout masters racked their brains.

An ideal! The Portsmouth Candy Company had loads of cracker-jacks. It was not a feeding of five thousand, but there were more than one thousand, according to Frank Appel, superintendent of schools, and the one thousand boxes of cracker-jack did not quite go around. Near Cranston's meadow, not far from the Micklethwait school, the boys

were divided into two groups. One was addressed by Mr. Wehrly and the other by Mr. Kinsey. It's a wonder all the people of Portsmouth did not hear the mighty chorus of wieners, when the boys promised to stick together in this great campaign for a cleaner and brighter Portsmouth. Women of the committee and teachers in automobiles followed the boys.

## Evening With Flag

An "all men" program, that's what it was, and these men of Bigelow church and others asked to aid in the program arranged by the Young People's Missionary Society got through a whole evening without so much as even calling on a woman accompanist. This evening with the flag was held at the home of Mrs. W. H. Doerr, 1112 Fourth street. All the men present sang "The Star Spangled Banner," with Dr. Charles E. Chandler at the piano, following which Dr. Chandler offered a prayer. Orson H. Ogier gave a descriptive reading, and Earl Kappas sang solo numbers. "Your Flag and My Flag" was recited by Richard Stanley following which Harold Walker played a piano solo. In a vocal quartet were Maurice Ball, Karl Kappas, James and Walter Wood.

Roger Selby gave a short description of the origin and history of our flag, mentioning the establishment of flag day in 1893 as June 14, and the fact that John Paul Jones was the first to fly our country's flag at sea.

Christian Hansen gave a violin solo, accompanied on the piano by Harold Walker.

Six Boy Scouts then gave a "first aid" demonstration. Howard McNamara was the "victim" on whom, head, eye, jaw and arm bandaging were demonstrated. Frederick Pride and Thomas Dupuy did this bandaging and Vernon Winters made the splint bandage and R. Hopkins demonstrated artificial respiration. J. S. Davis played a cornet solo and Corporal Wesley Bennett, Company K, gave an exhibition of semaphore signalling as did Fred Pride, a Scout. The manual of arms was presented by Corporals Robert Nutter, Wesley Bennett and Carey Williams, all of Company K, in uniform. Laris Moore was another member of Company K present.

# Valley View

CONSISTING OF 152 LITTLE FARMS AND BIG LOTS, is situated on the Portsmouth and Galena turnpike, within sight of Portsmouth; the pike will be paved past the subdivision this year.

VALLEY VIEW lies on a slope rising gently westward from the edge of the Scioto Valley, famous the world over for its fertility, which it overlooks, as it does the Peerless City, with the most magnificent and picturesque view to be had in Southern Ohio. One glance at the grand panorama presented to those whose good fortune it has been to visit our subdivision, immediately suggests the name by which it is known.

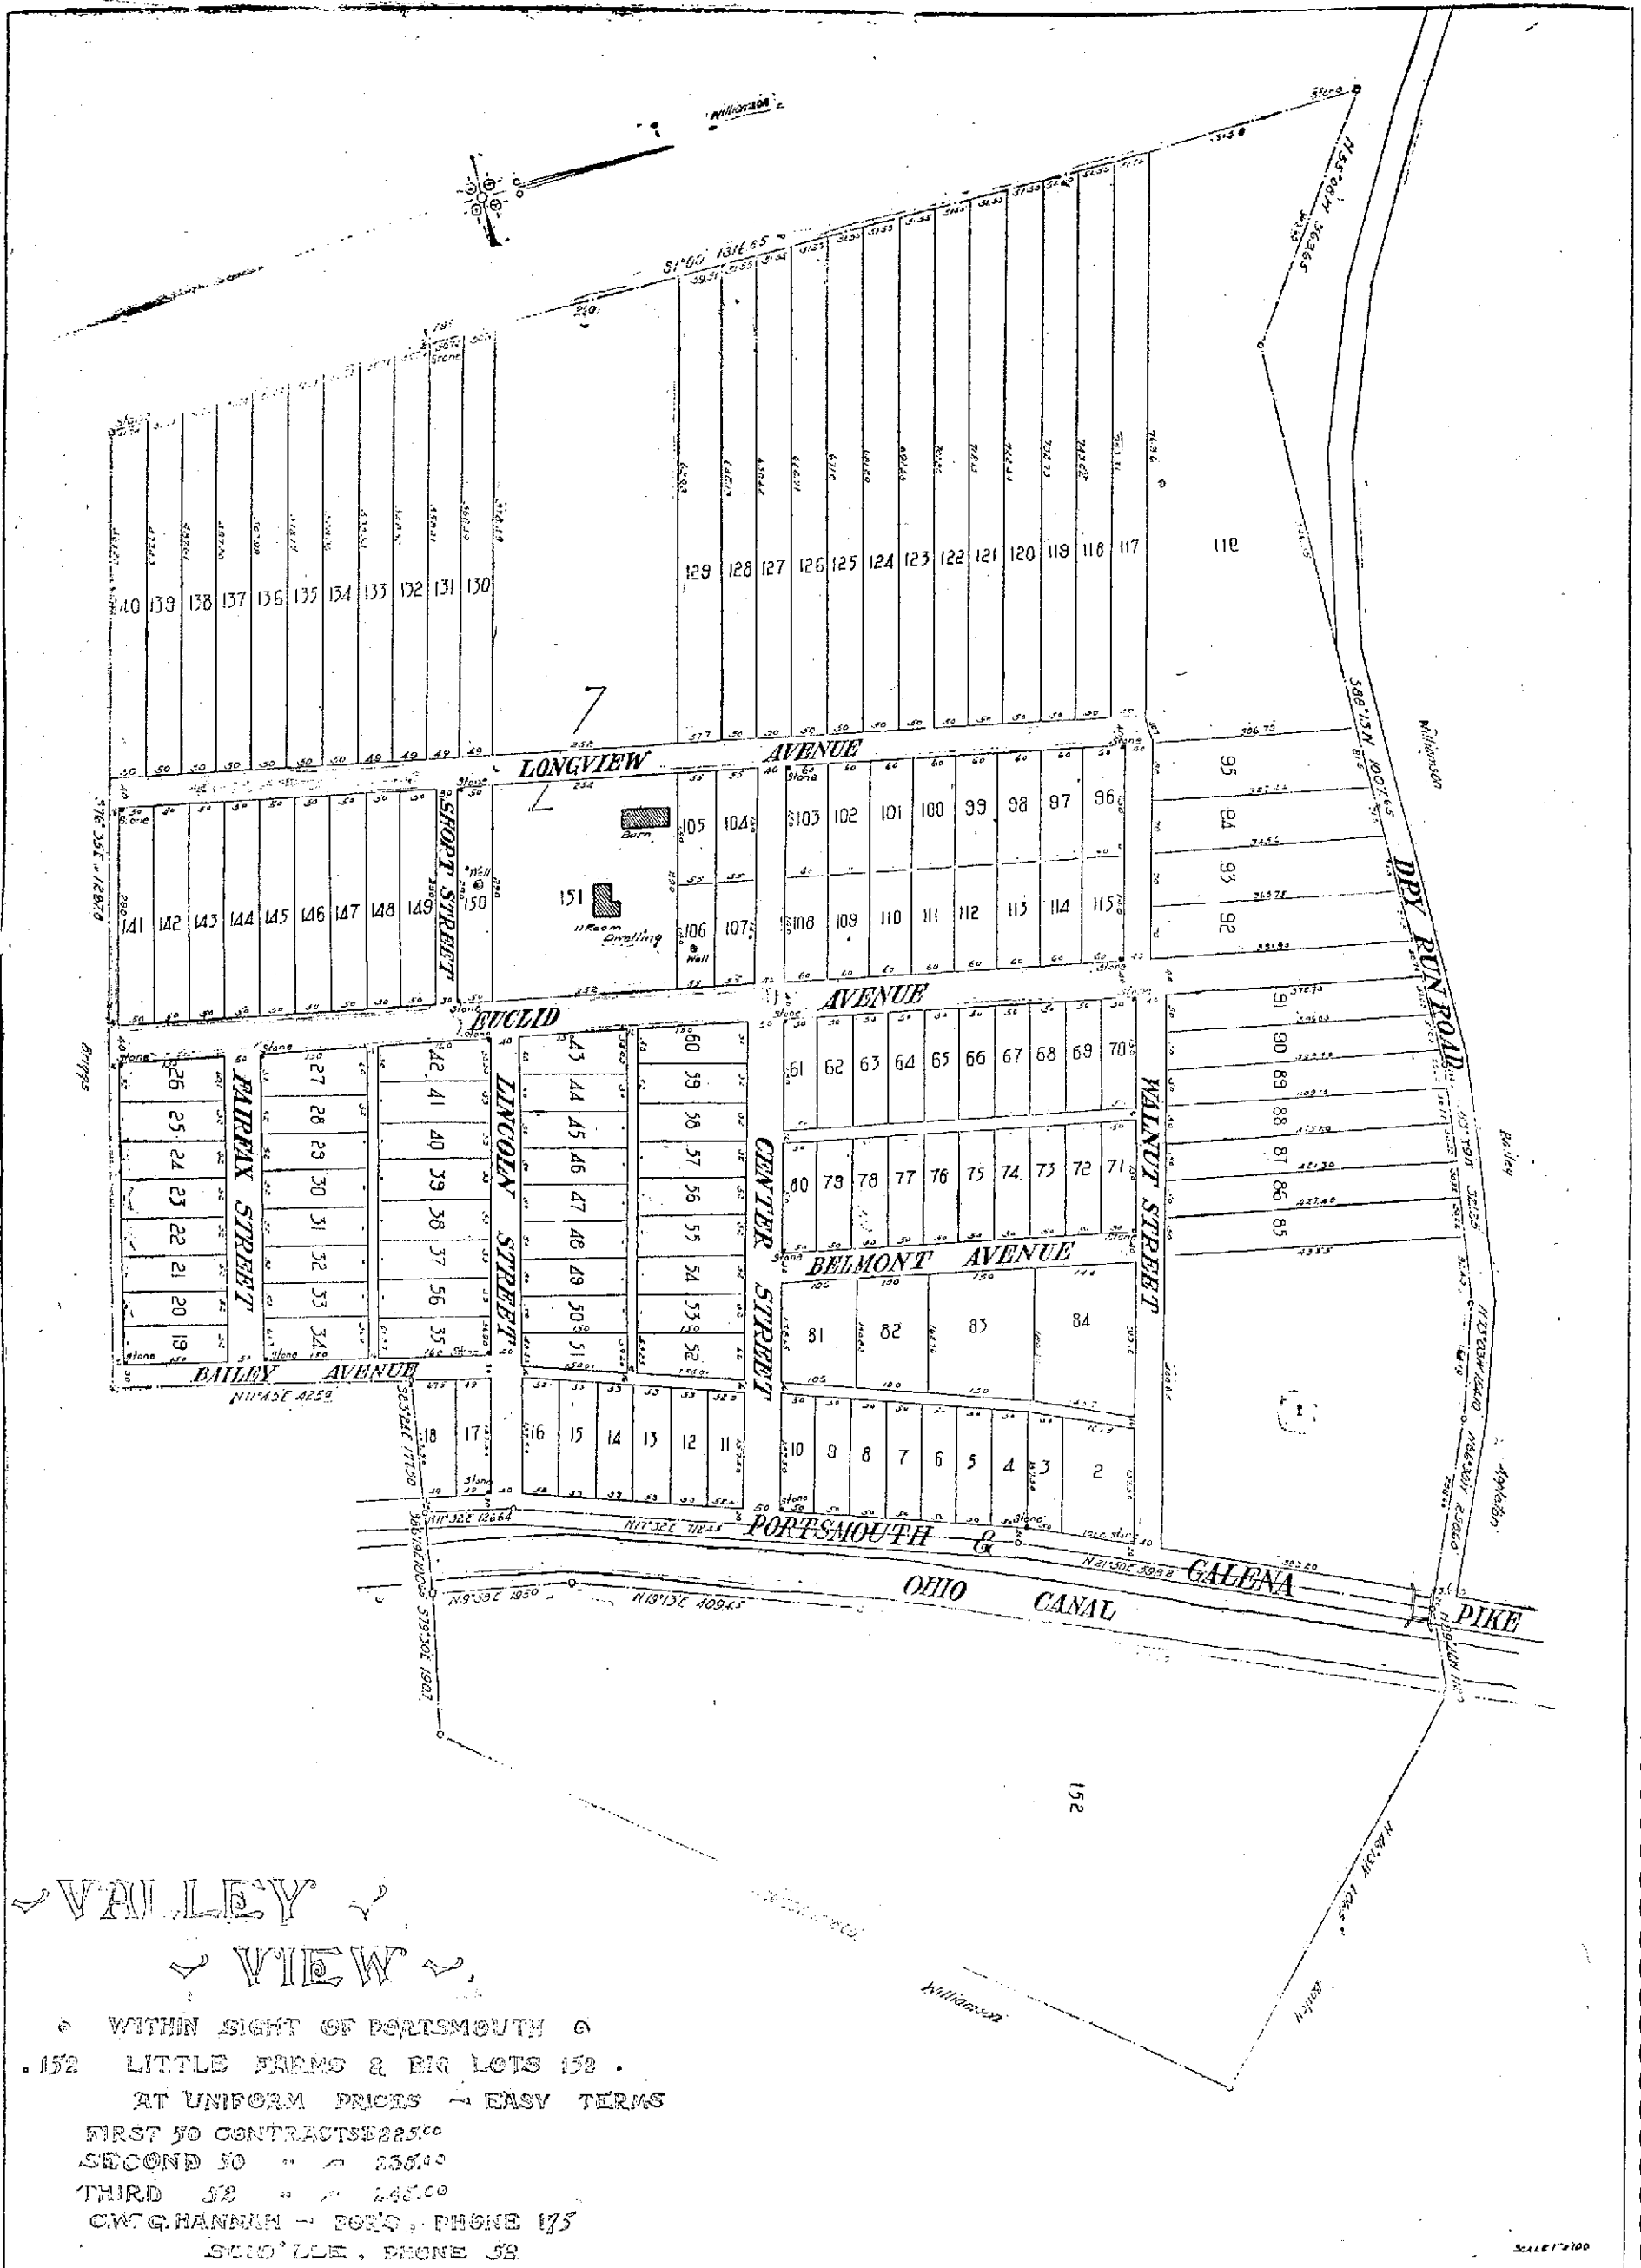

A cry has gone up throughout the Portsmouth community for home-sites with garden spots and a study of the accompanying plat will demonstrate that VALLEY VIEW has been subdivided in response to the demand for such places. The reader will note that nearly half the parcels comprising the Valley View subdivision are of such large dimensions as to make the term "Little Farms" by no means inappropriate, while the remainder must be designated as "Big Lots" as compared with the mere house-sites common to most subdivisions about Portsmouth.

## Our Plan of Selling

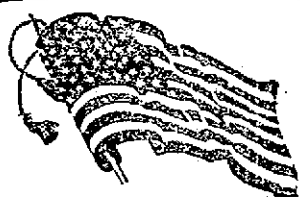

We are offering EVERY LITTLE FARM AND BIG LOT IN VALLEY VIEW INCLUDING THE 6 ACRE TRACT WITH \$7000.00 IMPROVEMENTS JUST AS SHOWN UPON THE PLAT in three allotments—

Each allotment having a uniform price as follows: The first 50 lots sold will go for \$225.00 each, the second 50 at \$235.00 each, and the third allotment of 52 lots will be sold for \$245.00 each. The different prices at which the several allotments will be sold, will in no way affect the distribution of the various interests acquired by the purchasers. You simply pay the advance by deferring your purchase as the sale goes on. OUR TERMS ARE EASY. LIBERAL DISCOUNT FOR CASH.

We have a proposition which for the purpose of fortifying yourself against the inroads being made upon your earnings by the advanced cost of living, stand without a parallel in the Portsmouth community; a proposition which as an investment upon which you may hope to realize enormous profits, stands unequalled in Southern Ohio, and we are entering upon a thirty days active selling campaign in which every Little Farm and Big Lot in VALLEY VIEW will pass into the hands of those who need homesites with good garden spots and those who have the backbone to take a shot at an investment in which there is NOT A SINGLE CHANCE TO LOSE A DOLLAR, and in which there are seventy instances of one hundred and fifty-two where buyers will realize from two to thirty times the original investment even at the advanced cost. Make us show you. It will cost you nothing.

## BRINGING UP FATHER

Copyright, 1916, International News Service.

By GEORGE McMANUS

A number of murders is accredited to "Petersburg," among which are the police say, a colored man at De Von, W. Va., a negro at Circleville; a man at Tunnel No. 9, L. & N. railroad, which is near Cincinnati, and a white beater at Greenup, Ky. All of these murders have been accomplished within the past four years, it is said.

A negro was arrested by the police in 1914, upon information secured from two negroes, who was believed to be "Petersburg." But on examination the next day, it was found that it was a case of mistaken identity.

Massie Rucker and C. W. Trent were held for interfering with Officer Flowers, while making the arrest.

"Just a playin' a bit," was the excuse offered by Missie McKane, Edna Zimmerman, Ben Dabney and Everett Roberts, when arraigned on charges of disorderly conduct. The four were fined \$25 and costs and were sentenced to 30 days in the county jail.

"Peg" Davis was back in court Tuesday to answer to a charge of being drunk and operating a disorderly house. He said he was guilty of being intoxicated. He was fined \$25 and costs.

Pat McCann and David Heller were each fined \$5 on charges of intoxication.

Edward Glynn was given a \$25 fine and was committed to the county jail until paid, on a charge of begging on the street and being drunk.

"Petersburg" suddenly denied any connection with the shooting and evaded questions relative to his former life. He said that Officer Flowers began hitting him with a club and he fought back to "keep from getting his brains beat out."

"Petersburg," from the traditions that abound in the railroad construction camps, is one of the most brutal negro criminals on the road. Most every colored man is afraid of "Petersburg." Whether this man is a character of fiction or whether he is real, remains for the police to find out.

# Loyalty Parade Is To Be For All In The Community

"This is your parade and my parade, and it is not a parade of this organization or that organization," J. C. Turley, of the general committee, said Tuesday in discussing the Loyalty Day parade, which is to be held by the citizens of Portsmouth Thursday evening, as a visible pledge of loyalty and support of the action taken by the United States toward Germany.

It is the individual parade. And organizations are only used to better handle the men and women that will march. Every man and woman in the city is asked and urged to turn out in this parade. It is a public demonstration of Portsmouth's patriotism.

This evening at seven-thirty o'clock the general committee and Grand Marshal, Capt. W. J. Keyes, will hold an important meeting at the city council chamber. Delegates from every organization in the city expected to take part are expected to attend. Final arrangements will be made then. The time is short and it is of vital importance that every citizen in making the Loyalty Day parade the greatest event in the history of the city.

Citizens of Scioto county, Greenup county, Ky., and Lewis county, Ky., have been invited to take part in the mammoth demonstration. Indications are that several hundred visitors will be here from the towns and communities to help make it a decided success.

Promptly at seven-thirty o'clock Thursday evening the various organizations and individuals will assemble at their appointed places along the streets crossing Eighth street. Near eight o'clock the parade will move.

At the Gallia street esplanade the parade will disband and the massed bands of the city will gather on the esplanade, together with the massed church choirs, where "The Star-Spangled Banner" and "America" will be sung. This will conclude the Loyalty Day exercises.

During the parade no automobiles or vehicles will be allowed within one block of the streets over which the parade will move.

A squad of one hundred plain clothes men will assist the police department in quelling disorders of any sort.

Everyone is asked to bring an American flag. Should you not be able to secure one, you are urged to

join the marchers just the same. Do not let anything keep you away.

Children under sixteen years of age, who are not with organizations, will not be allowed in the parade.

The center of the esplanade will be reserved for the massed bands and the church choirs. No one will be allowed to enter this place except those for whom it is reserved.

Members of the various church choirs in the city are asked to be at the esplanade at seven-thirty, ready to form a great choral, to lead the public in singing the two national anthems.

Organizations who have not been assigned to a place in the parade are urged to call Chairman Mayor H. H. Kays.

Watch The Times for all announcements and master every detail, so that the parade will move without a hitch of any sort.

Revised plan for the formation, etc., of the Sixth division was announced by Mayor H. H. Kays, as follows:

Sixth Division forms on Gay street, north of Eighth street, facing south, and is formed as follows:

Division commander—Fred Minor. Aides—William Gooden, William Cornutte and John H. Jackson.

The Lewis Brass Band.

This division will represent the Allen chapel and all other colored organizations and citizens.

The members of the Allen Chapel choir will report at the Gallia street esplanade at seven-thirty o'clock to join the massed choirs of the city.

Spanish War Vets Will Be There

All Spanish War Veterans, whether members of cavalry, navy or any department of the country's defense, living in Portsmouth and vicinity, whether members of the camp, are urged to meet with the Spanish War Veterans of the Peerless Camp No. 79, at 7 o'clock Thursday night in the G. A. R. hall, to join in the Loyalty Parade. All who can wear their old uniforms are asked to do so. G. S. CARROLL, Commander.

Sons of Veterans Will Turn Out

To All Sons of Veterans of Portsmouth and vicinity:

On next Thursday evening a patriotic demonstration will be held in this city in which it is the duty of every loyal American to take part. Our country is at war and our sons are now called to their places in the battle line as our fathers were called in '61. As loyal descendants of "the boys in blue" it is doubly our duty to show our loyalty and devotion to our country at this time.

So, in order that all sons or grandsons of veterans of the late war, whether members of the order or not may have an opportunity of marching together under the flag for which their fathers fought, this invitation is extended to come and join us Thursday evening.

All descendants of soldiers or sailors in the late war are eligible to be members of the order, so if you are one of these bring your

YES! MAGICALLY!  
CORN LIFT OUT  
WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of Freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while Freezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whittling at his corns, but clip this out and make him try it.

## Negro Who Shot At Officer Held To Jury

As many as sixty spectators called at police station Tuesday morning to see Bill Williams, whom the police believe to be the famous "Petersburg." Williams is a tall heavy set black negro, with low forehead, blood shot eyes and well scarred scalp. He was charged with having shot at Officer Charles Flowers with intent to kill. Mayor H. H. Kays held him to the grand jury on a \$1000 bond.

Testifying, the officer stated that "Petersburg" had sent word

by friends that he intended to visit Portsmouth for the purpose of paying his respects and regards to Officer Flowers and that his greeting would come from a pair of "automatics," for he expected to kill this officer who has gained a reputation for maintaining peace in the North End.

## Most Effective Remedy Mother Had Ever Used

Dr. Caldwell's Syrup Pepsin Relieves Baby When Other Medicines Failed.

There is nothing so necessary to a child's health and comfort as regularity of the bowels. All children are especially susceptible to stomach trouble and any over-feeding of the sensitive organs has a tendency to obstruct elimination. This condition is responsible for much of the illness of childhood.

To relieve constipation a mild laxative should be employed. Cathartics and purgatives are violent in their action and should be avoided. Mrs. Alfred Du Bois, 26 Holly, N. J., says Dr. Caldwell's Syrup Pepsin is without doubt the most effective remedy for constipation she has ever used and that it is the only remedy she could find for her baby. Little Earl was badly constipated during his first year and nothing she did seemed to help him until she used a bottle of Dr. Caldwell's Syrup Pepsin. Now he is a fine, strong, healthy boy, and she credits Dr. Caldwell for it.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative with pepsin, free from

Earl Du Bois

opiates or narcotic drugs; it acts gently without griping or other discomfort, and appeals to children because of its pleasant taste. Druggists everywhere sell it for fifty cents a bottle, and every mother should have it in the house for use whenever occasion arises.

To avoid imitations and ineffective substitutes always be sure to ask for Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, trouble, woes, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 60.

from one place to another, or completely taken away? My mother says she remembers seeing those stone lions twenty-four years ago and she was never in Portsmouth before that year. She says she is positive, so please answer this, or refer it to some old resident and oblige.

### WANT TO KNOW

Dear Miss Wise—Would you please tell me if there is any premium on a

dollar (U. S.) made in 1873, with the mint mark e e on it? STEVE. Silver dollars coined between 1863 and 1889 are worth \$1.20.

Dear Dolly—Please give me a full description of Niagara Falls.

### LIKE TO KNOW

The falls, being one of the great scenic attractions of the world, are visited every year by many thousands of tourists. From the time when Father Hennepin discovered them in 1675, and enthusiastically estimated that they were over 500 feet in height, they have never been adequately described. A realizing sense of the grandeur of this prodigious green flood pouring into an abyss where it is half lost in the masses of ascending mist can be obtained only by personal observation. It would take almost a page to begin to describe the Niagara river and falls. The American Falls, Goat Island, Horseshoe or Canadian Falls, etc. The volume of water which enters Niagara is 280,000 cubic feet a second and the normal flow pouring over

the cataract is about 500,000 tons a minute. The fall of the river in the gorge, 7 miles long, is about 160 feet. The confined waters pour tumultuously along at an estimated speed of 30 miles per hour, and the terrific crush and battle of waters makes a spectacle that is equal to that of the falls themselves.

Miss Dolly Wise—As you have helped many others, I have come to you for a little advice. Now Dolly I read an adv. in The Times some time ago where they wanted several ladies to act for the movies, so I addressed a letter correct, but received no reply. Now Dolly, a great many friends of mine try to get me to join the movies, but really I don't know what step to take. I have a swell complexion, brown curly hair (chestnut) pearly teeth, weight 140 pounds, height 5 ft. 4 in., full of life. So, Dolly, do you really think I'd make a good movie. Thanking you in advance for any information concerning same.

C. B. S.

If your friends are so anxious to have you join the movies, why don't they get busy and see that you get a place as leading lady in one of the popular film companies. No doubt you could outshine Mary Pickford or Clara Kimball Young in no time. The addresses of the different studios are always printed in the back of movie magazines.

Miss Dolly—Will you please tell me if there is anything in planting vegetables in the light or dark moon? Some time my garden does well and sometimes not and I have had some potatoes to come up near the top of the ground and be turned green. Now if you don't know, will some one who does know answer from experience, as this is important.

### ONE WHO TRIES

Didn't you read the "Garden Club" article in Saturday night's Times. One who knows says vegetables that grow under the ground should be planted in the dark of the moon and those that grow above the ground should be planted in the light of the moon. There will be a new moon the 21st, or this Saturday.

Dear Miss Wise—I was told the other day by a man who knows, that tomatoes do better when they are "set out in the sod," that is when they are set right in the grass and sodded closely around the roots, instead of hoeing them all the time. Would like to hear from those who have tried this plant.

WOULD-BE-GARDNER.

## THE MOVIES

## MISS CHRISTINE MAYO

### Famous Vampire Woman

## APPEARS IN PERSON

### At The COLUMBIA THURSDAY

Miss Christine Mayo, the famous Vampire Woman of moving pictures, who is coming in person to the Columbia theatre on next Thursday, was accorded the highest honor a woman can gain in New York City. In a contest held by the New York Telegraph Miss Mayo was voted the most beautiful woman that ever graced the bough of Manhattan. When one considers the famous beauties that have trod the walks of Broadway, and if their imagination is broad enough, they may conceive the beauty of Miss Mayo, without seeing and meeting her in person.

When people are introduced to Miss Mayo, they stare with mouth open, and shy wives hold on to their better half's coat, for fear the Vampire of the screen will complete her work in her home or on the street. But the most surprised persons of the party are the ones who expected to see two little horns projecting from under Miss Mayo's beautiful mass of coal black hair.

One is especially surprised to watch this beauty when she is watching a picture in which she is

usually powerful one, and only an actress of Miss Barrymore's ability could successfully portray it on the screen.

## At The Exhibit

Don't forget this is serial night. "The Crimson Stain Mystery" the thrilling Metro serial is half the program while "Pearl of the Army" is the other half. "The Human Tiger" is the title of this chapter No. 15. Everyone is wondering who the "Crimson Stain" is. This is the chapter that was to have been shown last Saturday. "A Million Volunteers" is the title of chapter 11 of "Pearl of the Army" the timely military serial featuring Pearl White. These serials are the best produced.

## At The Temple

This is Triangle night at the popular East End movie house, where the best pictures are seen and the good music enjoyed. Triangle night is always a bargain night. "Plain Jane" is the title of the leading attraction, a five-part Kay-Bee production in which lovely Bessie Barriscale, takes the title role. This is a drama with many funny situations. "Busted Trust" is the title of the two-act Keystone side-splitting comedy in which Slim Summerville is the dispenser of the laughter. An A No. 1 bill.

## At The Arcana

One of those thrilling Western bills today with a side splitting one reel comedy. "Heroes of the Plains" is the title of the Big U Indian drama and it is a real thriller. See the Indians attack the old cabin and how the young Westerner holds off the redskins with a lone rifle. "From Out of the Past" is a Rancho Western production featuring the rough cowboy. See the exciting capture of Fero Dick. "A Bare Living" is the riotous Victor comedy featuring Eileen Sedgwick, Ralph McComas and Milton Sims.

## At The Strand

"The Crimson Stain Mystery" serial is drawing to a close. Tonight is shown the 15th chapter, entitled "The Human Tiger." This is Metro's famous serial that has got everyone speculating as to who is the "Crimson Stain." Maurice Costello and Ethel Grandin are the leading characters. "Destiny's Boomerang" is a 3 act Western and Indian drama of excitement. These Mutual Westerners are thrilling all the way through. "Every Lassie Has a Love" is a Mutual Star comedy full of laughs and more laughs.

Scarcely had Demonstrator Derwacter opened his Nerv-Worth campaign at Ironton last Monday when Mr. Cannon called on him there and told what marked benefits he had derived from this famous family tonic. This is what he said and signed his name to: "For a number of weeks I had been feeling weak, nervous and losing flesh. Did not feel like work. I was only weighing about 127. I heard of Nerv-Worth and purchased two bottles at your store. "After taking two bottles I began to gain in flesh and now weigh 134. I am not nervous now and am feeling strong. ## THEATRICAL

## At The Iris

Every seat in the Iris theatre was filled at three performances yesterday afternoon to see the famous picture Mrs. Vernon Castle in "Patria" and the wonderful picture proved to be a sensational success. Last night the Patti McKinley Players presented for the first time here the great labor play "Capital vs. Labor." It was well staged and was presented in a high class manner. This play will be presented again tonight also tomorrow night and as these performances are given as a benefit for the I. U. of U. B. W. of A. Local No. 140 there is little doubt but what the house will be filled at each performance.

The stock company will lay off Thursday night for the Lyman Howe pictures. On Friday afternoon the company will offer the greatest of all white slave plays "The Lure."

## Lyman H. Howe Pictures

Gaullantry and heroism, tragedy and comedy, humor and pathos, triumph and disaster—all this and much more lie ahead from start to finish every foot of the wondrous filmization of Sir Douglas Mawson's Expedition into the heart of the Antarctic which Lyman H. Howe will present at the Iris theatre on Thursday. The humor is all the more sprightly and refreshing because it is so natural. The show will be held until after the parade.

## Motor Club To Secure Quarters; Has Many Plans To Aid Members

Directors of the Automobile Club held a meeting Monday evening and resumed making arrangements for getting the club at Wakefield where a roadway in motion. A committee consists of W. A. Hutchins and Chas. Wertz was appointed to consider plans for permanent headquarters to be kept open for the benefit of motorists belonging to the club. Mr. Wertz reported that he had held a meeting with County Commissioner John Duis and also the Seiotoville officials in regard to the crossing under the B. & O. tracks and the unpaved stretch at the east end of the bridge. As a result the Sheridan & Kirk Company had fixed up the unpaved section and a meeting would be held Friday night between Mr. Duis and the Seiotoville officials in regard to fixing the crossing. The county is to furnish all necessary material and Seiotoville the labor to do the work. Mr. Wertz reported that the commissioners showed entire willingness to aid in every manner possible in taking care of bad places.

The club will call the attention of the State Highway Commissioner to a dangerous condition at Wakefield where a roadway is open to open abutments of an old bridge. Request was made that the roadway be fenced off to avoid accident. Report was made to the directors that Eikeston had enacted a new automobile speed ordinance enforcing the law to the letter. The ordinance calls for a speed of 8 miles an hour on the main business street and 15 miles an hour on other streets. A minimum of \$25 and a maximum of \$50 is provided for violations of the law. Motorists are warned to slow down and conform to the ordinance strictly. Report was also made that Adams county roads were unusually bad this Spring and should be used only in cases of necessity and not for pleasure. Gratifying results have been obtained in the canvass for subscriptions and the work of getting new members will be pushed actively. Every motorist should belong to the club. Signs at all principal cross roads will be placed in position soon.

Ethel Barrymore in "The Awakening of Helena Richie," Columbia Tonight.

In "The Awakening of Helena Richie," which will be seen at the Columbia tonight Ethel Barrymore has the greatest play of her career as a motion picture star. The role of Helena Richie in this powerful screen version of Margaret Deland's novel, is admirably adapted to the talents of Miss Barrymore.

The acting calls for interpretation of the disposition of a beautiful woman of wealth who has experienced deep tragedy as a wife, yet does not comprehend the real experience has driven the lesson home to her. Then she is called upon to decide between the man she loves and the child she has adopted.

Here is where she experiences her "awakening." She finds that the man is unworthy of her love—and that realization comes only after she has decided to cling to the child. The situation is an un-

## Real Fistic Treat On Tap For Fans Friday

Friday night at Distal hall, Charles Anderson and James Distal who are going to form a boxing association to put the game on its feet, will stage a double bill with two of the most popular boxers in the city, Homer Thomas and Asa Henderson as the chief attractions.

When the warman begin to tumble the ropes in 10 and 8 round bouts, respectively with Phil O'Dowd and "Red" Evans they are certain to be greeted by a large crowd. Thomas tackles O'Dowd while Henderson will try to outclass with "Red" Evans. Both contests should be as exciting as any ring battle ever staged in Portsmouth. O'Dowd comes here with a record that any fighter should feel proud and Thomas will find him a hardy warrior as he bested Thomas in a 10 round bout in Columbus last fall. O'Dowd has staged most of his fights in the northern part of the state and must be given credit for being an extremely busy person as he is averaging a fight or two a week. Thomas is training hard and expects to be in the pink of condition as he knows what he is going up against.

The Henderson and Evans bout should be a corker. Henderson is one of those strong rangy fellows whose specialty is to slug, the slug that almost put the old fighter, Kid Latch, to sleep. Anderson is training Henderson. The question is, how much punishment can he stand. Evans will be after him from the bell and Henderson will be forced to show his best efforts.

A six round preliminary between two colored boys will furnish excitement and fun for the fans. Chas. Anderson will referee the bouts.

## SPORTLETS

New York, April 17.—With the second round of the brand new baseball season showing up today, the old dog finger and the finger of suspicion is directed mainly at Christy Mathewson's Reds and Connie Mack's Philadelphia Athletics.

Neither of which teams have been considered of more use in the two big leagues of late than tumbling a place to stop off on a trip somewhere else. The dog finger is directed strongly at the antics of the Giants and White Sox. There may be something in the old superstition that it is bad luck to win the first pot but Clarence Rowland and John McGraw are the kind of managers who believe a game won will count as the season nears its close.

The fact that Eddie Cicotte pitched a no-hit, no-run game may not mean anything, but it will get him a lot of room on the sidewalks.

The Giants, despite the temperamental makeup, have been blistering baseballs with reckless abandon. The Athletics, nearly turned the baseball world over when they ground out twenty hits off a batch of Washington pitchers. The surprise was unnecessary, however, for Black has gathered in his several years of search, a team of terrific batters who will shoot disaster into the nerves of many a hurler before the season is over.

The Reds have done remarkably well so far. Pitching, hitting and baseball in general have been rolled together by Matly and the results are easy to see. His team is new and may fail to maintain the stride it has started, but a team that plays this sort of baseball is not destined to last place.

Fred Mitchell's misfortune when Vic Snier broke his leg has added just one more obstacle in the path of the Cubs' rejuvenation. Larry Doyle is having considerable trouble with his ankle.

With both Doyle and Snier out of the team the Cubs are in a bad fix. A new first baseman must be found before the team can get its bearings again.

Yesterday's hero—Walter Holke. His two hits alone were enough to convince the Dodgers that they've made a bad start.

Pavia Schupp is beginning right where he left off last fall for the Giants. He scored his first shut out of the year at the expense of the Dodgers. Grover Cleveland Alexander was equipped mainly with bad luck. The Braves mailed him for three trips in a row and sent him back on the short end of the score.

Jess Barnes had to contend with bad fielding by Maranville and Evers, but delivered.

Red Faber tried to emulate Eddie Cicotte but the Tigers nipped him for two blues.

Ping Bodis accomplished three hits out of the four efforts.

Frank Baker's box is in bad health. He will be back in the game next week—Frank will.

"Irish" Conwell is playing third base for Waco and he has been hitting in his old time form. Eddie Donalds pitched the opening game for Waco against Shreveport and lost 5 to 2.

Cincinnati, April 17.—Manager Mathewson is anxious to secure a right-hand hitting outfielder and has Scout

It was in 1909 that Fatimas nosed their way to the front and became the fastest-selling cigarette costing over 10c.

Of course, Fatima's remarkable sales do not make Fatimas taste any better

But it proves that MOST men find that Fatimas keep their promises—that Fatimas do taste good and are comfortable while you are smoking and that after you smoke they leave you feeling just as fine as before.

## THE VOLUNTEER AND THE REGULAR

Pressure for providing for the formation of a volunteer army is getting so insistent that indications the administration is giving considerable heed is shown in the tentative announcement from Washington that men will be allowed to volunteer for the term of the war, but they will be incorporated into the regular army for the time being.

This may be spoken of as acknowledging the shadow without conceding the substance of the volunteer system. It does not admit the formation of separate volunteer companies, corps, brigades and armies, but swallows up the recruit in the regular formations.

Claims for the volunteer plan are that it allows all of those who would fight to enlist as they may, it gives a peculiar character and distinction, fights only when there is fighting to be done and avoids the noxious life of the regular, perhaps, for years after peace has been won. Further than that it inspires to individual rivalry and valor. The volunteer would strive to out do the regular, Ironton would strive to lead Portsmouth and Kentucky would never permit herself to be outdone by Ohio. But, after all, the volunteer idea may have taken its present strongest hold upon the public because of the fascination that hangs about the personality of Theodore Roosevelt. It must be conceded everybody wants to see him fighting and fighting at the head of men, whom he has drawn about him because he is their ideal of a fighter and a leader.

On the other hand it is insisted war, in these modern times, like everything else, has become specialized. It is a machine that must be assembled, geared, set and worked to an exact and harmonious unit from all its parts. Further, it must be admitted, the most thoroughly organized fighting machine in all the world is the one we have to encounter. Our hope of overcoming it lies in creating another, not alone its equal, but its superior. Lastly, those whose business is the science of war and to whom we must depend upon for leadership are unanimously in favoring and insisting on a regular army solely. It does not bode the best to insure against them at the very start. We must remember it is our mission to win the war, not to seek the gratification of seeing our untrained fancies and theories tried out. The rank and file must follow in the beginning, because none as yet has proved capacity to be in the van.

Considering these divergent views, only one safe course presents itself and that is to accept ungrudgingly and unquestionably whatever chart is presented by the government.

Some officers are expressing disapprobation of congress because it hasn't its war measures already made. An army officer ought to be the last to fault find in this respect. War preparations seemingly proceed mightily slowly these times, military no quicker than legislative, as the untrained mind views in either respect. Congress has done nobly and is going ahead just as fast as it reasonably and safely can.

Of course the Peerless just had to get in with the thrill of a German spy and the contemplated explosion about public and munition works. There is one indisputable solemn fact, whether the person arrested be guilty or not, and that is spies and eunuchs are likely to appear anywhere, according to the favorite practices of the Kaiser's government and behooves every citizen to keep his eyes open all the time and report promptly any suspicious person or action.

An exchange tells its legislature it may adjourn whenever it is ready. That is the trouble, legislatures never adjourn until they are good and ready and have done about all the mischief possible.

If the chasers the government is going to build show the U-boats there is plenty of room at the bottom all will be well.

A pessimistic contemporary sees all Europe adopting the daylight saving scheme because it is about all they have to save.

Young Morgan offers to lend the government a million without interest. Well, every little helps.

You just can't stop some people. There are those still demanding a vote on whether or not we shall go to war.

Among other mighty problems that confront the New Hampshire legislature are shall cuts be licensed and a bounty placed on squirrels. Considering that an acre of New Hampshire soil will produce, on an average, enough nut-buns to give a squirrel one square meal, the latter problem is really of moment.

Woodrow never thought it would come to that, but the Berlin papers are denouncing him as "the War Lord of America." Think of that about a man, who is so eminently for peace, that, like Grant, he will fight for it.

It wouldn't hurt a bit if more flags were displayed in Portsmouth.

If some way of showing how could only be devised of showing how much food could be saved as will be raised by our Peerless Garden Club.

The railroads were granted a raise in rates last week. But we haven't heard a word for two weeks about the raising of that new station.

## SHOULDER TO SHOULDER

## THE BIRTH OF A NATION

We saw the much talked of Birth of a Nation film down in Cincinnati the other night. As a picture it is a wonderful creation, no doubt of that. The purely mechanical effects are unsurpassed and the historical representations are doubtless but little exaggerated, although decidedly more emphasis is laid upon the excesses of the negro race than upon the northern sealawags and carpet baggers who urged them on to riot, robbery and assault. On the whole we are sorry that we saw the picture. It did not leave a single elevating thought, not a solitary pleasant memory. Rather the after impression was that of a horrid nightmare, and that impression was shared by the group of Ohio newspaper editors who were in our party. Looking back today, after the lapse of several days, we are confirmed in our original impression that no good can come from the exhibition of such a picture. It is bound to excite race feeling, it is bound to arouse feelings of antagonism in the minds of white people against the colored race as a whole, to visit indiscriminately upon the colored people of today suspicion born of the sins and the crimes of the minority of the newly freed race during the days of reconstruction. And, as stated, the fact is that those crimes and excesses were engineered and manipulated by vicious and irresponsible white carpet baggers, who slunk to the rear while the fighting was on and forged to the front when peace came.

We are sorry that we saw the picture. And we repeat, that we do not see wherein it can do any one any good to see it. If you dote on nightmares, you will get your fill in the representation.

Mexico has a sample of bone dry prohibition, that ought to satisfy the most ardent opponent of Demon Rum. A short while back General Merguia, commander of the Carranza forces about Chihuahua, issued an order that no liquor should be sold and anyone violating the order would be hung without trial. Three hardy souls took the chances and they were promptly hung.

Some people are always having ideas. Over in Connecticut they are seriously thinking of putting bells on cats so the birds may have warning of them being about. The Cleveland Plain Dealer thinks rats will heartily approve of the belling.

The Man with the Hoe can consider himself full brother to the Man with the Gun, when it comes to defending the country.

The offhand manner in which we set aside seven billion dollars as a beginning to this fracas must be at least a trifle amazing to our enemy, who figures in marks.

## BATH TUBS

(By George Martin)

There's just one thing wrong with our bath tubs. They're too slick.

You can't get a toe, hip, elbow knee or shoulder hold worthy the name anywhere on one of the blasted things. Try as you will. It's no use. You don't stick. No matter where you get on, in or around a bath tub, you slip off. What we need more than anything else in this country today is, not judicial reform, not scientific food, not industrial, commercial and military preparedness, but good, rough bath tubs.

## THE GROWING GIRL

A girl when in her teens is passing through a critical period of her life. The transition from childhood to maturity is not always easy; consequently, in many cases health breaks down entirely and the girl goes into a decline and dies young. If she escapes this fate, she may fall into a state of permanent ill-health. It is of the utmost importance, in order to insure normal and healthy development, that proper precautions be taken, and nothing has proved more helpful than the faithful use of Lydia E. Pinkham's Vegetable Compound, the great woman's medicine and tonic.

## NEW-YORK-DAY-BY-DAY

O.O. MCINTYRE.

New York, April 17.—The White Society of Illustrators gave their annual dinner at the Majestic the other night and each and every man offered his services to the country.

Charles Dana Gibson, James Montgomery Flagg, Henry Raleigh, Arthur William Brown, Howard Chandler Christy, Justus Martin and Alonzo Kimball were among those who offered their services in any way the president saw fit.

If these men go to war there will be most unusual opportunities for the aspiring young illustrator who declares that he never gets a chance. Many of the comic artists also pledged their services at the dinner and the great reading public may also be deprived for a time of their favorite comic strip.

A million New York Jews celebrated the Passover. The celebration of the deliverance of the first-born of Israel from the judgment wrought by divine wrath on their oppressors and the wondrous liberation of the Hebrews from Egyptian bondage is an inspiring sight in New York.

Around the joyous "Seder" banquet table, by evening candlelight, thousands of good Israelite families gathered to partake of the traditional unleavened bread (matzoth) and bitter herbs. The men and boys keep their head covering on, and father reclines on soft cushions.

There's a 2,500 year old reason for it all, as well as for the quaint ceremonial preparations that have been in progress for a week before the event. This year there was double joy in the Passover, because the miracle of Egypt has been repeated in the wondrous dawn of Russian Freedom.

The "knock wood" superstition is said to date back to the days of syrian gods, when oak, ash and yew were sacred trees, whose dethiel would come to the assistance of the knocker.

Disastrous Experiment

A farmer tells a story of his shooting. Says he:

"I was very much troubled with these winged thieves (the birds), for they made terrible havoc among the corn. I put scarecrows up all I was tired, so I took my gun, loaded with powder and pellets, and you should have seen the quantity I brought down in one day. One morning my boy rushed indoors and yelled:

"'Dad, hundreds of birds among the corn!"

"I took my gun, put in powder, but could not find the shot, so I thrust in a handful of ticks and of I ran. Getting to the corn, I yelled pretty hard, and up flew the birds into a tree. Being excited, I fired, and behold every bird was nailed to the tree, with their wings flapping as if flying. Struck with the sight, I stood watching them, when the blessed things pulled up the tree and flew away with it, leaving me in disgust." —New York Globe.
